

NISSAN, RAM & FORD WORK VAN THIRD BRAKE LIGHT CAMERAS

TE-3BNV2 / TE-3BDP2 / TE-FDPL WORK VAN THIRD BRAKE LIGHT CAMERAS

 SALES 800-221-0932

PRODUCT OVERVIEW

iBeam Vehicle Safety Systems® high-resolution third brake light cameras, the TE-3BNV2, TE-3BDP2 and TE-FDPL. The TE-3BNV2 and TE-3BDP2 cameras use the factory brake light and expand it to add the camera, allowing for a clean install. They keep the vehicle looking like 'factory' but with the additional safety and security of a reverse viewing camera. iBeam's TE-FDPL is a replacement license plate light camera. Each of the cameras offer a CMOS 1/4 sensor, 580 TV line resolution and a 170 degree viewing angle.
