

DD24SV2T7

24" Single DishDrawer™

The unique DCS DishDrawer™ dishwasher makes clean up simple and safe. This ergonomic solution to dishwashing offers kitchen design flexibility and superior results.

Stainless Steel

Dimensions

Depth	22 11/16"
Height	17 7/8"
Width	23 13/16"

Features & Benefits

Ergonomic

The DishDrawer™ is as easy to open and close as a kitchen drawer and conveniently positioned at bench height so loading and unloading requires minimal bending. Easy-to-use folding tines allow you to place large pots, platters and bowls into the drawer with ease.

SmartDrive™ Technology

The unique, brushless DC motor developed by Fisher & Paykel, incorporates fewer moving parts meaning greater reliability.

Handle Option

DCS DishDrawer™ dishwashers come with a choice of two handle profiles - round or square.

Superior Wash Performance

From heavy duty to delicate; the nine wash cycles offer variable wash (or water) pressure combined with the world's first flow-through detergent dispenser. 163°F sanitizing temperature and fan-assisted drying ensure superior results.

World's First

With over a decade of manufacturing experience, the world's first drawer dishwasher, designed by Fisher & Paykel for DCS, offers the most ergonomic solution to dishwashing.

Generous Capacity

The Single DishDrawer™ dishwasher holds 7 place settings. A fully adjustable racking system with independently movable racks and folding tines gives flexibility allowing the drawers to hold large items and plates up to 13".
