WPS Utility - WPS Button

1. Press the WPS button on your router.

2. Select the Wi-Fi network to connect to.

3. Confirm the connection.

4. The connection is established.
Federal Communications Commission Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- This device may not cause harmful interference.
- This device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

CAUTION: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

IC Radiation Exposure Statement

This equipment complies with IC RSS-102 radiation exposure limits set forth for an uncontrolled environment. This equipment is designed to provide reasonable protection against harmful interference in a residential installation.

Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Canada, avis d’industry Canada (IC)

Cet appareil numérique de la classe B [8] est conforme à la norme NMB-003 du Canada.

For product available in the USA/Canada market, only channel 1–11 can be operated. Selection of other channels is not possible.

ICC ICW Warning Statement

Under Industry Canada regulations, this radio transmitter may only operate using an antenna of the type and maximum (or lesser) gain approved for the transmitter by Industry Canada. To reduce potential radio interference to other users, Industry Canada reserves the right to require the user to operate at lower power level or for the user to take any other protective measures as appropriate.

ICW Mark Warning

This Class B digital apparatus complies with Canadian ICES-003. This Class [8] digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe [8] est conforme à la norme NMB-003 du Canada.

For product available in the USA/Canada market, only channel 1–11 can be operated. Selection of other channels is not possible.

Radio Equipment List (Radio Canada)

For product available in the USA/Canada market, only channel 1–11 can be operated. Selection of other channels is not possible.
