Web Product Name

VTech 2.8" Digital Video Baby Monitor with Night Light, White, VM3258

Web Description

Check in on your little one with a 2.8-inch LCD screen on the VTech VM3258 Digital Video Baby Monitor with Night Light. Soothe your baby using the multi-color night light and lullabies and soft sounds that play right from the baby unit. Plus, you can make sure your infant is cozy by monitoring the nursery temperature that's displayed right on the LCD screen. Best of all, with the industry's best battery life, you can easily monitor your baby throughout the night with up to 19 hours of video streaming on one charge.

Web Features

- High-resolution, 2.8-inch color LCD screen - Clearly see every little move right from the high resolution 2.8" parent unit. When you check in on your baby, you'll feel like you've never left the room.
- Night light on baby unit - A soothing light on the baby unit gently illuminates a dark nursery. Choose from three different colors. Enable the Auto-on feature to turn the night light on when noise is detected to help soothe your baby back to sleep.
- Soothing sounds and lullabies - Two calming melodies and two soft ambient sounds, including a trickling stream and white noise, help your baby slip into a sweet slumber.
- Two-way, talk-back intercom - Sometimes all your baby needs is to hear the sound of your voice. Comfort your infant from any room with the built-in intercom on the portable parent unit.
- Temperature sensor - Keep your little one cozy. The temperature indicator on the parent unit lets you know when it's time to adjust the thermostat.
- Rechargeable battery with up to 19 hours of video streaming - Easily monitor your baby throughout the night on one charge with the industry's best battery life with up to 19 hours of video streaming or up to 29 hours of audio only streaming.
- Automatic infrared night vision - The camera automatically detects dim light, so you can see your baby's stretches and yawns even in dark rooms.
