Debut ConneX DCB41 Powered Speaker System

Simply Connected

ELAC's DCB41s with its versatile inputs are designed to connect to a variety of sources without additional equipment, resulting in Premium Audio Simplified.

Rear Firing Ports

For better lower frequency extension and to minimize ventilation noise, the bass reflex port on the DCB41 is directed to the rear, in an “S” configuration.

XBass Enhancer

XBass is a proprietary bass enhancement circuit providing a overall better bass output.

Long Excursion Woofer

A long excursion woofer with wide-rolled surround provides increased output for added bass extension.

Custom Waveguide

A custom designed waveguide controls dispersion and directivity improving overall imaging and balance.

DCB41 SPECIFICATIONS

SPEAKER TYPE	BASS REFLEX / POWERED
AMPLIFIER POWER	50 WATTS X 2
