# Eve Blinds Collection

## Made-to-Measure Smart Blinds

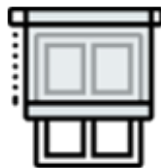

Configure now

Delight in the convenience of smart shading with customized smart blinds that perfectly fit your window size and enhance your interior aesthetic. Open and close your blinds using your voice or an app, control them from afar, and set scenes to boost comfort and advance energy efficiency.

## Tailor-made for you.

The Eve Blinds Collection is a curated collection of made-to-measure blinds for Matter that can be perfectly controlled and automated using smartphones and voice assistants of all major platforms. The blinds combine Eve MotionBlinds motors with high-quality fabrics, available in semi-transparent and blackout options as well as with energy-saving, insulating properties.

Choose from a selection of contemporary fabrics – apart from excellent functional properties, the fabrics are characterized by a very subtle texture in a palette of neutral colors, that suits any style and taste.

The **Comfort Collection Light-filtering** fabrics are made of recycled yarn and have a delicate wool-like look that creates a feeling of intimacy – beautifully filtering incoming daylight.

The **Comfort Collection Blackout** fabrics are made of recycled yarn and are equipped with a white backing. Blackout fabrics completely darken the room and therefore, create ultimate privacy in the rooms you desire most.

The refined, screen-like weaving texture of the **Light-filtering & Insulating Solar** fabrics create a natural look and feel. The fabrics in this collection are made of 100% Trevira CS polyester and are available with a metallic backing, reflecting solar energy and filtering the light naturally.

## Order fabric samples

To ensure you are satisfied with your selection, we'll ship you complementary fabric samples to view in your home before ordering upon request. Once you've chosen size, fabric and color, we'll manufacture your blinds for you – all you need to do is mount them on your window. Add the promotion code **SAMPLE** to get them for free.

**Maximize  
comfort  
and  
convenience...**

**... via app  
or voice.**

Already made  
yourself  
comfortable?  
Hands tied? Open  
and close your  
blinds with a  
simple tap or by  
using your voice.  
No phone or digital  
assistant in the  
room? Simply use  
the pull-cord.

**...when  
on the  
go.**

Control your blinds  
from anywhere –  
whether you're  
strolling around  
the block or  
exploring the  
world.  
Your [hub](#) will keep

you connected to  
your abode.

## **...with scenes.**

Use your favorite app's automation features to combine multiple Matter-enabled devices in a single scene and save yourself the hassle of running to and fro. A "Good Night" scene can shut your blinds, turn on your bedside lamps and switch off all the other lights in your home with a single voice command.

# ...while improving energy efficiency.

Automatically  
adjust your blinds  
to regulate the  
amount of sunlight  
entering your  
room. The Eve  
Blinds Collection  
offers a unique  
collection of  
fabrics equipped  
with special, light-  
blocking coating.

### Installation ⓘ

 Inside mount

 Outside mount

### Dimensions ⓘ

Our smart blinds are made-to-measure. Please note! Before you start measuring, pay attention to any obstacles such as door and/or window fittings that protrude, heating pipes or inward-turning doors and windows.

Please note: for large systems the minimum width is 71.5 cm. Width is overall end to end of the blind and not the width of the fabric. Check the info-i for measurement instructions.
