# Connected Like Never Before

Drone XC is the only dash cam that will connect to an aftermarket remote start or security system – giving you complete confidence and control over your vehicle's safety.

## 24/7 Vehicle Monitoring

Drone XC dash cam monitors your vehicle on and off the road so that you never miss a thing.

**Drive Mode** – Continuously records the moment you start driving to the moment your ignition turns off.

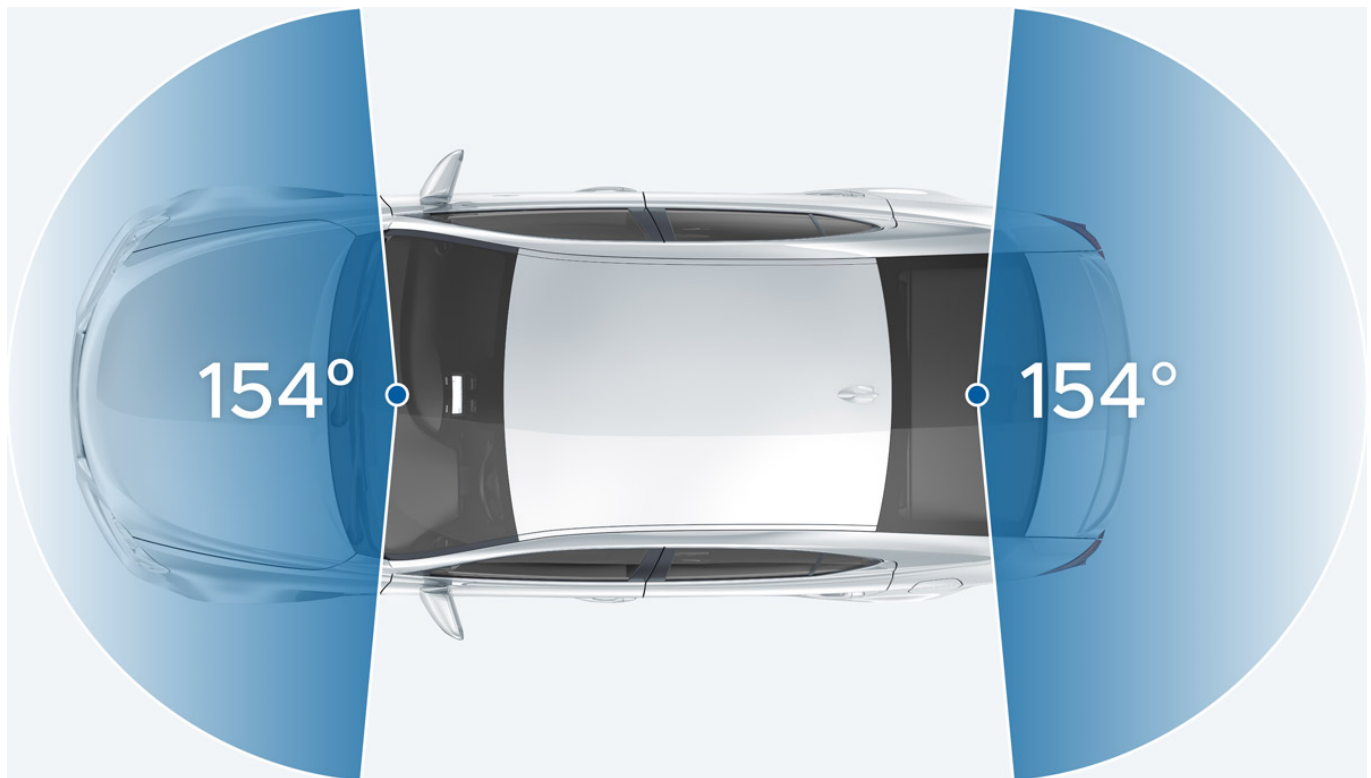

**Parking Mode** – Recording activates when motion or impact is detected.

**Live View** – See what your car sees in real time over LTE.

## Second Pair of Eyes on the Road

Equipped with a 2K front camera that features a Sony STARVIS sensor, Drone XC delivers 154 degrees of surveillance coverage for your vehicle. Double your coverage by adding a Drone XC rear or interior-facing camera (sold separately).

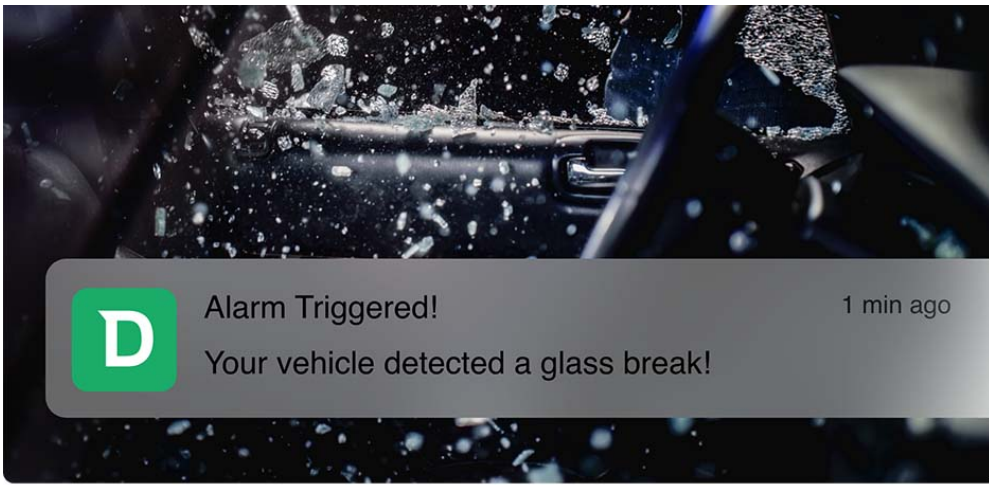

# Clear View of What's Ahead

With its ultra sleek profile, the Drone XC Dash Camera requires only a small footprint when it's mounted to your windshield, so you'll always have an unobstructed view of the road.

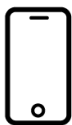

## Sensors for Every Situation

Thanks to Drone XC's unique integration with aftermarket alarms, the XC dash cam can start video recordings from any of the following triggers:

- Motion (image sensor)
- Tilt and Towing
- Glass Breakage
- Door/Hood/Truck Opening
- Impact (multiple stages)
