

## DX-PT213

# 2-Outlet 2-USB Power Hub with Surge Protection

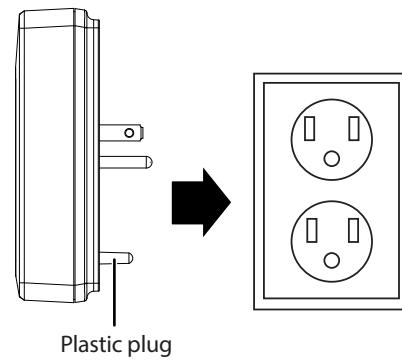

Congratulations on your purchase of this Dynex Power Hub with Surge Protection.

### Features

- **Two USB charging or power ports, 2.1A total charge current**—Fast charging for two smartphones or one tablet.
- **500 joules surge protection**—Protects your devices from damaging power surges and spikes.
- **Protected LED indicator**—Lights when the surge protection feature is working properly. If this LED does not light or goes out, the surge protection feature has reached full capacity and can no longer absorb additional surges and spikes. The surge protector should be replaced if this light goes out.

### Using your power hub

- 1 Plug the surge protector into the upper outlet of a standard 120V AC outlet, with the plastic plug in the ground jack of the lower outlet.

- 2 Plug the power cords from up to two devices into the AC outlets on the surge protector.
- 3 The USB ports can be used to charge or power certain USB devices.

### Specifications

- Dimensions (L×W×D): 4.7" × 3.0" × 1.3" (not including plug)  
(119 × 76 × 34 mm)

#### Electrical specifications:

- Load rating: 15 amps
- Line voltage: 125V AC @ 60 Hz
- Maximum surge current: 15,000 amps
- Maximum energy dissipation: 500 joules
- Clamping voltage: L-N = 800 volts
- UL-1449 certified

#### Other specifications:

- Connected equipment limited warranty: \$50,000 max

Before using your new product, please read these instructions to prevent any damage.

## Safety precautions

- RISK OF ELECTRIC SHOCK - Use only in dry locations and only indoors.
- DO NOT plug into another relocatable power tap.
- DO NOT "daisy chain" surge protectors.
- DO NOT use with any aquarium equipment.
- DO NOT use if correctly grounded outlets are not available.
- DO NOT install this device if there is not at least 30 feet (10 meters) or more of wire between the electrical outlet and electrical service panel.
- This device features internal protection that will disconnect the surge protective component at the end of its useful life, but will maintain power to the load – WHICH WILL BE UNPROTECTED. If you don't want your equipment at risk, follow the manufacturer's instructions for replacing the device.

## FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**Warning:** Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

## One-year limited product warranty
