

Qi Wireless Charging Alarm Clock with Nightlight

The perfect bedside companion - this device combines a Qi Wireless charging pad with an alarm clock and a nightlight.

Overview:

Aluratek's Qi Wireless Charging Alarm Clock with Nightlight is a versatile tool for your bedside. A crisp LED screen displays the time clearly and also doubles up as a night light. Charge your Qi compatible devices with its own compartment for charging in a sleek and modern design that works with any space. The USB port allows for charging other devices like tablets, phones, and other USB compatible devices.

Simply place your phone to charge overnight, check the time and use your night light all in one. Your perfect bedside companion is finally here.

Features:

- Built-in wireless Qi charging pad - place your smartphone directly on the pad for wireless charging
- No Qi compatible phone? Not a problem. Comes with a USB charging station so you can charge your phones, tablets and other devices
- Integrated with a nightlight with three different brightness levels - adjust to your comfort level
- Clear and crisp LED screen makes for easy visibility to show the time
- Set one custom alarm
- Limited 1 year warranty

Qi Wireless Charging

Charge your wireless charging enabled smartphone while you work or sleep by simply placing it directly on the charging pad.

Alarm Clock with Nightlight

The large LED screen displays the time and features an integrated nightlight with three brightness levels. You can set one custom alarm.

Additional USB Charging

Charge a second USB powered device using the built-in USB port on the back of the unit. Charge two devices at the same time. (Charging cable not included)
