2 Diagram

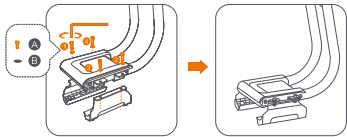

3 Installation and Usage

① Seat installation

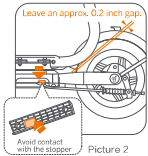

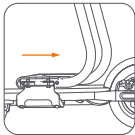

1. Place the saddle on the seat post, and tighten the screw set in order.

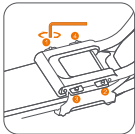

2. Install the clips and pre-tighten the screw set in order.

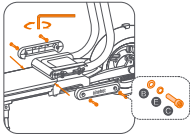

3. Place the seat assembly on the middle of the footboard (illustrated as Picture 1), and move it to the position illustrated as Picture 2.
* Watch out for the location of the avoiding rubber stopper.

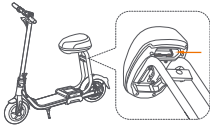

4. Tighten the screws in order.

5. Install the two side covers.

6. After installation, store the hex wrench below the seat.

Welcome
