

WHOLE HOME HD EXTENDER

RF-HPL302

Connect a cable box, DVR, or other video source to another TV anywhere in the house. Easy to use, just connect to your video sources and TVs.

FEATURES

- Full 1080p HD Video
- Connect and select from 2 different video sources
- Sends HD video over your home's power lines. Power line transmission results in great range and high performance video without wireless or WiFi interference, or wireless range limitations
- Use your cable or satellite box, or other video source's remote control from any room in your house containing the transmitter or receiver
- HDMI pass-through output so you can connect both a local and a remote TV
