- Daylight A19 Bulbs
- Extra Bright Soft White A19 Bulbs
- Extra Bright Daylight A19 Bulbs
- Soft White BR30 Bulbs
- Multicolor A19 Bulbs
- Multicolor BR30 Bulbs

Introduction:

Sengled Smart LED bulbs offer an easy solution to having app-controllable smart lighting in your home. These bulbs enable you to control your lights in multiple ways—on/off, dimming, schedules, etc.— through the Sengled Home app on your phones or through partner programs like Amazon Alexa or Google Assistant.

Note: A hub is required to control these bulbs.

Important Safety Information:

Before installing the Sengled Smart LED bulbs, please read and follow all precautions, including:

- Turn off power before installation or removal. Discontinue use if damaged.
- Warning: risk of electric shock. Do not attempt to disassemble bulb.
- Not suitable for use with wall dimmers.
- Suitable for use in operating environment between -4°F and 104°F (-20°C and 40°C).
- Not for use in emergency lighting.
- Indoor use only.

Installation Instructions:

The following instructions are applicable to adding your Smart LED bulb to a Sengled hub. If you have a third-party hub, such as SmartThings or Amazon Echo Plus, or would like to find our latest list of supported third party hubs, please refer to support.sengled.com.

- 1 Download the latest version of the Sengled Home App from the Apple App Store or Google Play Store.

- 2 Register and sign in to your Sengled account in the app.
- 3 Open the Sengled Home App. Go to Devices, select the + sign, and choose Bulbs.

Follow in-app instructions to finish installation.

- 4 Ensure your Sengled Home app can discover the bulbs. If the app unsuccessfully discovers the bulbs, please refer to the next section "Reset Instructions" for how to reset your bulb before attempting to add it back in.

Congratulations on successfully installing your smart bulbs!

Reset Instructions:

To reset your Smart LED bulb, ensure that the bulb is on and then quickly turn the bulb off and on 10 times (using a light switch or power bar works best). If the reset is successful, the bulb will flash five times. If it does not flash five times, you will have to try again. Once successfully reset, please try to pair it in your Sengled Home app again.

Operation:

The following section outlines some of the popular operational modes of the Sengled Smart LED bulbs.

Applicable to all smart bulbs:

A Turning the bulbs on and off

Smart LED bulbs can be controlled through a variety of means:

- Manually via a wall switch
- Through Sengled Home App
- Through partner programs like Alexa, Google Assistant, IFTTT, etc.

B Dimming

Smart LED bulbs can be dimmed through the Sengled Home app, through partner programs such as Amazon Alexa, Google Assistant, IFTTT, etc., or the Sengled Smart Switch. Manual dimming via wall dimmers is not supported.

C Scheduling

Schedules can be created with Sengled Home App.

Check the in-app how-to pages through "Settings" for the following two operations.

D Voice Control

- Set up Amazon Alexa by adding **Sengled Home** Skill. (Check the in-app how-to page)
- Set up Google Assistant by adding **Sengled Home** Service. (Check the in-app how-to page)

E Third Party Control

Utilize a third-party program (like IFTTT) to control your lights. (Check the in-app how-to page)

If you have Sengled Smart LED Multicolor bulbs, the following operations are also available:

F Tuning Whites

Adjust whites via the white palette in the Sengled Home app, or with voice control and third parties.

G Changing Colors

Change between 16 million colors using the color palette in the Sengled Home app, or with voice control and third parties.

Frequently Asked Questions:

1. What can be used to dim these lights?

We recommend using the Sengled Home app or a compatible smart device to dim or brighten your Sengled Smart LED bulb. If the Sengled Smart LED bulb is installed on a wall dimmer, the dimmer must be set at 100% at all times. Manual dimming through the wall dimmer is not supported.

2. Sengled Smart LED bulbs appears offline or unresponsive, what should I do?

- a) Please check the light switch and make sure that it's switched to "On".
- b) Refresh the status of your hub, navigate to the Home tab, swipe down and then release.
- c) Try moving the bulbs closer to the hub.
Additionally, check to make sure that your internet connection is working properly. Try turning the bulbs off and on. If that does not work, try turning the hub off and on. If all else fails, try restarting your router.

3. Can different types of Sengled smart bulbs be used simultaneously?

Yes, a single Sengled Hub can support up to 64 devices from the Sengled Smart LED family (formerly Element Classic, Element Plus, Element Color Plus, PAR38, 100W and Element Smart Plug).

Limited Warranty:

3-year limited warranty from original purchase date. To learn more about the Limited Warranty for Sengled products, please visit www.sengled.com/warranty.
