Products – Feeding – Bottle-  
Feeding – Warmers &  
Sterilizers

**STAY CLEAN,  
STAY HEALTHY**

## **EFFECTIVE 360-DEGREE SANITIZING**

Kills 99% of bacteria, germ and viruses

### **Surface in Partnership with Project Nursery**

Today it's more important than ever to make sure the important items you and your baby are in contact with everyday are clean and safe. Surface partnered with Project Nursery on the Surface XL Pro UVC Sanitizer and Charger to offer you a safe, chemical-free sanitizing solution for all your personal items. This convenient device lets you sanitize any object that can fit inside the box: baby bottle nipples, pacifiers, toys, teething rings, etc. Not only is it safe and effective for your baby's items, it's great for mom and dad, too. Easily sanitize tablets, cell phones, face masks, watches, keys, jewelry, earbuds, and credit cards – all things you frequently touch, that could increase the risk of passing along germs to your child. Revolutionary UVC light technology from multiple UVC LEDs zaps away up to 99.9% of bacteria and viruses to help you feel cleaner and more confident about the items you use the most, within minutes. Multiple UVC LEDs and mirrored interior maximize coverage to sanitize all surface areas. AC power adapter, a sanitizing-tracker indicator light, and three charging ports are included so you can charge and sanitize your devices simultaneously.

## Maximum Sanitizing Coverage

With the Surface XL Pro, you can rest easy knowing your all surfaces of your baby's bottle nipples, pacifier and toys are sanitized thoroughly. The use of multiple UVC LEDs and the specially-designed mirrored interior maximize coverage to sanitize all surface areas.

**LARGE  
CAPACITY**

## **More Space for a Better Clean**

Most UV light sanitizers on the market are designed to fit a single smart phone. Our Surface XL Pro is designed to go above and beyond the competition by providing a large interior to sanitize not only phones, but the larger objects you and your baby come in to contact with every day.

Sanitizing dimensions: 12.76" x 8.74"

### Modern, Sleek Design

White finish with chrome accents provide a modern and sleek look so you can keep the device out on a table or shelf without worrying about cluttering the room.

### Operates Silently

Easy-to-use design makes this an effortless solution to keep you and your family safe. The Surface XL Pro operates silently so it is great for any room of the house, including the nursery. The indicator light located on the front of the device keeps track of sanitizing to let you know when sanitization is complete.

3 USB CHARGING PORTS

### Convenient Device Charging

This is a great solution to keep mom and dad's personal items sanitized as well. We know new parents are busy, so save time by charging your device while you sanitize using the 3 built-in USB charging ports.
