

IDEAPAD¹ (14" & 15")

Unparalleled efficiency and portability.

Browse, explore and connect with confidence on the Lenovo IdeaPad 1 powered by ultra-fast AMD Ryzen™ 5000 Series Mobile Processors on selected models. The IdeaPad 1 packs responsive performance in a thin and compact 17.9 mm chassis, making multitasking on-the-go a breeze. Get the most out of your device with a frameless display for more screen and Dolby Audio® speakers, along with 10 hours of battery life and rapid charge. Great for video calls, the 1MP camera comes with a privacy shutter to keep out spying eyes, as well as Smart Noise Cancelling to eliminate background noise.

WHY YOU SHOULD BUY THE LENOVO IDEAPAD 1 (14" & 15")

Elevate your entertainment

Watch shows on a more expansive screen with a thin frame for an 87% Active Area Ratio—the amount of screen compared with the size of its borders—and Full-HD on select models. Listen to rich and clear audio from two Dolby Audio® speakers.

Solid security

Keep hackers from getting to your device. The 1MP camera comes with a physical privacy shutter to keep peeping eyes from spying, even after a video call. The optional fingerprint login on the power button also keeps your laptop tight and secure.

Productivity with no limits

Work from anywhere, even without WiFi access. Work on offline apps and access your files from an optional 512 GB SSD hard drive, and stay productive for up to 10 hours on just one charge. Charge 15 minutes with rapid charge boost* for 2 hours battery.

A smarter way to learn

Learn smarter means a smarter laptop with features such as Flip to Start, which turns on as soon as you open the lid. Minimize background noise while you're on a video call with Smart Noise Cancelling.

* Rapid Charge Boost optimal performance achieved during S4, S5 power states or shutdown.

- Microsoft Office
- Lenovo Utility
- Lenovo Vantage

¹ All battery life claims are approximate and based on two methods of testing: MobileMark® 2018 battery life benchmark on the latest update of Windows 11 (with 150 nits brightness and default volume level). Actual battery life will vary and depends on many factors such as product configuration and usage, software use, wireless functionality, power management settings, and screen brightness. The maximum capacity of the battery will decrease with time and use.

² Available on select models.

³ The actual transfer speed of the USB 3.2 Gen 1 will vary and, depending on many factors, such as the processing capability of host and peripheral devices, file attributes and other factors related to system configuration and your operating environments, will be slower than a speed of 20 Gbit/s.
