Yomawari: Midnight Shadows

The follow-up to 2016's cult horror hit *Yomawari: Night Alone*, *Yomawari: Midnight Shadows* introduces two brand-new girls, Yui and Haru, to the night and the spirits who haunt it. Separated by a mysterious attacker, each girl will explore haunting and bizarre locations, face the terrors of the night, and test their courage and wits to survive and reconnect with one another.

A Complete Town to Explore

Enter abandoned homes, climb through junk yards and up mountains, or venture into dark sewers in your search.

Two Views of the Dark

Search the night and explore a town as either of *Yomawari: Midnight Shadow's* two characters. What you find with one may serve as a clue, or even save the other.

Horrors, Oddities, and Mysteries

When Japanese spirits come to life, you'll encounter horrors birthed in nightmares, oddities that will make you question what is real, and mysteries that may just keep you up at night.

Gorgeous Style

Enter the dark with haunting art to view the city and from above, and get close to the heart-pounding moments in beautifully imagined side-scrolling set pieces.
