SSD storage

27" Full HD Display

Large 27-inch screen with Full HD resolution (1920x1080, 16:9), ideal for multitasking, comfortable studying, and enjoying multimedia content.

Smooth Performance with Intel Core i5

Powered by an Intel Core i5-1135G7 processor and 16GB of DDR4 RAM for responsive, stable, and interruption-free daily use.

Ultra-Fast SSD Storage

512GB NVMe SSD delivers quick boot times, fast application loading, and plenty of space for files, programs, and projects.

Complete & Modern Connectivity

Includes a wide range of connections: USB, HDMI, VGA, Ethernet, WiFi 6, and Bluetooth 5.2 for full compatibility with modern devices and networks.

All-in-One Design - Space Saving

All components are integrated into a single display, reducing cable clutter and creating a clean, organized, and functional workspace.

Integrated 5MP Webcam & Microphone

Front-facing 5MP camera and built-in microphone for clear video calls, online meetings, and virtual classes without extra accessories.
