Overview
100 Word Product Description

The CORSAIR 7000D AIRFLOW is a full-tower ATX case for the most ambitious builds, with an airflow-optimized steel front panel for maximum air intake. CORSAIR RapidRoute cable management easily keeps your cables hidden from sight, while a massive interior enables a multitude of cooling options, including up to 12x 120mm fans or up to three simultaneous 360mm radiators. Three included 140mm CORSAIR AirGuide fans deliver concentrated airflow for enhanced cooling, and customizable side fan mounts hold up to a 420mm radiator. Show off your components behind a tool-free tempered glass panel and add your own personal touch with a customizable windowed PSU shroud complete with a three-slot vertical GPU mount. With room for up to ten storage drives, a front I/O panel including a USB Type-C port and four USB 3.0 ports, and easy-access hinged side doors, you can build your legacy in the 7000D AIRFLOW.

Features and Benefits

Style 1

- Build your legacy with the 7000D AIRFLOW, a full-tower case for your most ambitious PC builds – offering easy cable management, a spacious interior, and massive cooling potential with room for up to three simultaneous 360mm radiators.
- A high-airflow optimized steel front panel delivers massive airflow to your system for maximum cooling.
- The CORSAIR RapidRoute cable management system makes it simple and fast to route your major cables through a single hidden channel, with an easy-access hinged door and a roomy 30mm of space behind the motherboard for all of your cables.
- Includes three CORSAIR 140mm AirGuide fans and PWM fan repeater, utilizing anti-vortex vanes to concentrate airflow and enhance cooling.
- A massive interior accommodates up to 12x 120mm or 7x 140mm cooling fans, and makes it possible to install multiple radiators including 3x simultaneous 360mm or 2x simultaneous 420mm for extreme cooling.
- Customizable side fan mounts allow you to side-mount up to 4x 120mm fans or up to a 420mm radiator, opening up a new world of cooling options.
- Put the spotlight on your graphics card with a three-slot vertical GPU mount on the PSU shroud, big enough for today's most powerful graphics cards.
- A fully equipped modern front I/O panel includes a USB 3.1 Type-C Port, 4x USB 3.0 ports, and a combination audio/microphone jack.
- Holds all the storage you'll need for years, thanks to 6x combo 2.5in / 3.5in drive trays and 4x 2.5in SSD mounts.
- Show off your high-profile components and RGB lighting behind a beautiful tool-free tempered glass side panel.
- A windowed PSU shroud is fully customizable for your own personalized inserts, perfect for creating a jaw-dropping mod.
- Two tool-free hinged side panels with simple and secure snap-on attachment, along with removable front and roof panels, enable easy access to your components.
