

QUICK SETUP GUIDE

RF-HTC4818, 4.8A 4-Port Charging Hub

PACKAGE CONTENTS

- USB Power Hub
- Quick Setup Guide

FEATURES

- 4 USB ports with 4.8A total output for constant power delivery for fast charging of your devices
- LED lighting around each USB port for easy connection (can be turned off)
- Premium design matches modern home theater systems
- Weighted base keeps the USB hub in place

USING THE POWER HUB

Note: The USB hub is designed for constant use. It can be left plugged in at all times, even if no USB cords are connected.

1. Plug the USB hub into a power outlet.
2. Plug your USB devices into the USB ports to power or charge them.
3. Slide the switch on the side to turn the trace lighting on or off.

TROUBLESHOOTING

USB hub isn't charging your device:

- Make sure that the USB hub is plugged into a working power outlet. If you're using a surge protector, make sure that it's turned on.
- Make sure that your USB cable is properly inserted into your USB device and the USB hub.

LED trace lighting isn't on

- Make sure that the USB hub is plugged into a working power outlet. If you're using a surge protector, make sure that it's turned on.
- Slide the light switch to turn on the trace lights.

Line voltage	100-125V, 60Hz, 0.7A
USB output	5V DC, 4.8A / 24W

SAFETY INFORMATION

- RISK OF ELECTRIC SHOCK - Use only in dry locations and only indoors.
- DO NOT plug into another relocatable power tap.
- DO NOT "daisy chain" surge protectors.
- DO NOT use with any aquarium equipment.
- DO NOT use if correctly grounded outlets are not available.
- DO NOT install this device if there is not at least 30 feet (10 meters) or more of wire between the electrical outlet and electrical service panel.
- This device features internal protection that will disconnect the protective component at the end of its useful life, but will maintain power to the load – WHICH WILL BE UNPROTECTED. If you don't want your equipment at risk, follow the manufacturer's instructions for replacing the device.

FCC STATEMENT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

ICES-003:

This Class B digital apparatus complies with Canadian ICES-003
