

<b>Embargo Date</b>	6-Jan-20
<b>First Customer Ship Date</b>	3-Dec-19
<b>Product Etail Title</b>	CORSAIR iCUE H100i RGB PRO XT
<b>Product Title</b>	CORSAIR iCUE H100i RGB PRO XT
<b>Product Name</b>	CORSAIR iCUE H100i RGB PRO XT, 240mm Radiator, Dual 120mm PWM Fans, Software Control, Liquid CPU Cooler
<b>Pre-Order Option</b>	None
<b>Product Imagery</b>	<a href="#">Photography</a>
<b>Compatibility List</b>	Intel LGA 1150/1151/1155/1156 Intel 2011/2011-3/2066 AMD AM4/sTR4

### Overview

#### 25 Word Product Description

The CORSAIR iCUE H100i RGB PRO XT is an all-in-one liquid CPU cooler built for both low noise operation and extreme CPU cooling, with a 240mm radiator, two CORSAIR ML120 PWM fans, and 16 RGB LEDs.

### Overview

#### 50 Word Product Description

The CORSAIR iCUE H100i RGB PRO XT is an all-in-one liquid CPU cooler built for both low noise operation and extreme CPU cooling, with a 240mm radiator and two CORSAIR ML120 PWM fans controllable between 400 RPM and 2,400 RPM. Equipped with 16 individually addressable RGB LEDs on the pump head, the H100i RGB PRO XT pairs killer looks with chiller performance.

### Overview

#### 100 Word Product Description

The CORSAIR iCUE H100i RGB PRO XT is an all-in-one liquid CPU cooler built for both low noise operation and extreme CPU cooling, with a 240mm radiator and two CORSAIR ML120 PWM fans controllable between 400 RPM and 2,400 RPM. Equipped with 16 individually addressable RGB LEDs on the pump head, the H100i RGB PRO XT is customizable through CORSAIR iCUE software, letting you create vivid lighting effects, adjust fan speeds, and enable Zero RPM mode to keep the noise down at low temperatures. With a thermally optimized cold plate and low-noise pump design, along with easy installation on most major CPU sockets, the H100i RGB PRO XT pairs killer looks with chiller performance.

### Features and Benefits

#### Style 1

- Two 120mm CORSAIR ML Series magnetic levitation PWM fans deliver improved airflow for extreme CPU cooling performance.
- 16 Individually addressable RGB LEDs light up the pump head to produce stunning, customizable lighting effects to match your build.
- Experience incredible cooling performance, with each fan running from 400 to 2,400 RPM while in operation.

- Zero RPM cooling profiles in CORSAIR iCUE software allow fans to stop entirely at low temperatures, eliminating fan noise.
- CORSAIR iCUE software allows you to control and synchronize your cooler’s RGB lighting with all iCUE compatible devices, monitor CPU and coolant temperatures and adjust fan and pump speeds, all from a single intuitive interface.
- Equipped with a thermally optimized cold plate and low-noise pump design for high performance, quiet cooling.
- A 240mm radiator with an expanded radiator core delivers high cooling surface area and performance.
- Modular, tool-free mounting bracket for quick and painless installation.

**Style 2**

- **Magnetic Levitation Fans:** Two 120mm CORSAIR ML Series fans deliver improved airflow for extreme CPU cooling performance.
- **Dynamic Multi-Zone RGB Pump Head:** 16 Individually addressable RGB LEDs light up the pump head to produce stunning, customizable lighting effects to match your build.
- **Extreme CPU Cooling:** Experience incredible cooling performance, with each fan running from 400 to 2,400 RPM while in operation.
- **Zero RPM Mode:** Zero RPM cooling profiles in CORSAIR iCUE software allow fans to stop entirely at low temperatures, eliminating fan noise.
- **Powerful iCUE Software:** Control and synchronize your cooler’s RGB lighting with all iCUE compatible devices, monitor CPU and coolant temperatures and adjust fan and pump speeds, all from a single intuitive interface.
- **High Performance Cold Plate and Pump:** Equipped with a thermally optimized cold plate and low-noise pump design for high performance, quiet cooling.
- **240mm Radiator:** An expanded radiator core delivers high cooling surface area and performance.
- **Easy to Install:** Modular, tool-free mounting bracket for quick and painless installation.

**Tech Specs**

•Dimensions (mm):	280mm x 120mm x 30mm / 11.02" x 4.72" x 1.18"
•Coldplate Material:	Copper
• Radiator Dimensions:	277mm x 120mm x 27mm / 10.91" x 4.72" x 1.06"
•Radiator Material:	Aluminum
•Fans included:	2x ML120 Magnetic Levitation Fans
•Fan Max Speed:	2400 RPM
• Fan Dimensions:	120mm x 25mm / 4.72" x 0.98"
•Tubing Material:	Rubber
•Fan Airflow:	75 CFM
•Fan Static Pressure:	0.2 - 4.2mm-H2O
•Fan Noise Level:	36 dB(A)
•Lighting:	RGB
•Warranty:	5 Years

**Box Contents**

CORSAIR iCUE H100i RGB PRO XT Liquid CPU Cooler | Mounting kit for all modern CPU sockets | Two ML Series PWM 120mm fans | Fan and radiator mounting screws | USB cable for Corsair iCUE Integration | Thermal compound (pre-applied) | Quick Start Guide
