

Magellan® MiVue 240

2.3" HD Dash Camera

The Magellan MiVue 240 DashCam documents your driving experience. This forward-facing dash camera provides peace of mind by recording clear HD video of all your vehicle journeys. Whether recording unexpected moments or capturing important video of an accident, you'll always be prepared. The MiVue 240 is a cost effective Dash Camera and comes with a 8GB microSD card, and is compatible with Class 10 rated cards up to 32GB.

720p HD

Video is recorded in HD (1280x720) for a clear account of all events.

2.3" Display

2.3" hi-definition display makes it easy to play back and watch recorded footage on the unit.

32GB microSD Compatible

Record hours of HD video with a 32GB microSD card installed.¹

Wide Angle Lens

The 130° wide angle lens provides an enhanced peripheral view to record the entire street - see the whole picture.

Impact Sensor

The dash camera automatically saves and locks video 15 sec before and up to 50 sec after an impact is recorded.

MiVue Manager

Browse recorded video and review for post-travel or accident analysis. PC and iOS compatible.

Rotating Camera

Easily rotate the camera to record both video and audio events on the driver's side or anywhere else the action is taking place.

Camera Mode

Remove the MiVue 240 from its mount and use it to capture still images of vehicle damage for a complete record following traffic incidents.

¹ 8GB microSD card included, 32GB card sold separately.
