FINALLY YOUR OWN CLOUD

Lima enables you to build your own personal Cloud very easily.

Keep all of your pictures, videos, music and documents with you on all of your devices all the time.

Keep your privacy and free space on your laptops, smartphone and tablets.

Your files are stored safely at home, enjoy them wherever you are!

+ SPACE

Your devices are bigger and can hold up to 7TB of data whatever their initial size

+ SECURITY

Your data is stored at your place and remains available wherever you are

+ COMFORT

Devices from different OSes can work together and share exactly the same content

+ FREEDOM

Your own your solution, it means no more monthly fees

+ EASE OF USE

Lima is very easy to install on your computer and mobile devices

+ PEACE OF MIND

If one of your devices is lost or is broken, your data remains safe

UNIQUE BENEFITS

Unlimited vs Capped storage

You don't need local storage. It's the opposite.

You need local storage to sync to your computer.

Your home vs Unknown

Your files are at your home.

Your files are on a company's server, somewhere

Owning vs Renting

You buy once, and it's yours forever

you rent space every month
