Explosion Drawing

Assembly Instruction

Take the full machine out of box, then open the front bracket (1) forward, and open the rear bracket backward as shown in the figure below.

Use carriage screw (14) to pass through the front bracket and the intermediate bracket, and tighten with Plum Knob (8). Put the hook stand (5) pass through the front bracket tube (1) and the front foot tube (2) according to the height requirement, and tighten with plum knob (8). Then insert the two handles (6) into the tube (1) hole, and insert the (21) pull-ring latch into the middle bracket and the rear bracket cross hole.
