

CO25AE

For Indoor/Outdoor Use

The CO25AE helps keep indoor rooms and outdoor environments comfortably cool and breezy. This weather resistant evaporative air cooler is made to resist outdoor conditions, great for spot cooling in both home and commercial locations such as your backyard, garage, retail shop space or office warehouse. Honeywell evaporative coolers do not require power hungry components like compressors. The CO25AE consumes only 235 watts* of power. With the unique honeycomb cooling media combined with a powerful motor, this unit delivers strong air flow suitable for spot cooling in outdoor applications. A top loading ice compartment feeds cool water to the honeycomb pads to further reduce air temperature and water regulator helps to vary the humidity level indoors.

* All specifications mentioned are under test conditions, actual performance depends on ambient conditions. Specifications may vary in different countries and subject to change without prior notice.
 ** Water Capacity is the total volume of water that can be contained within the air cooler water tank and water distribution system.

Product Dimensions (in)	18.9 (W) 14.6 (D) 33.3 (H)
Net Weight	25.8 lbs / 11.7 kg
UPC Barcode	848987000565
EAN Barcode	4895007930940
Container Qty 40' HQ	360 pcs

FEATURES & BENEFITS

Weather-Resistant For Outdoor Use

Low Power Consumption 235 Watts*

Water Capacity 6.6 Gallons (25 Liters)**

4 Speeds: High / Medium / Low / Natural

Low Water Alarm

Ice Compartment For Faster Cooling

Cools Up To 300 Sq.ft (28 Sq. m)*

Powerful Air Flow 500 CFM (850 m³/hr)*

Honeycomb Cooling Media

Oscillating Louvers
