CORONA

Corona™ camera bags are ultra-versatile thanks to three access points and multiple ways to carry your gear. Mindfully designed, Corona™ packs are constructed using only the most durable, modern and lightweight materials. Tough CORDURA® fabrics and high quality YKK® zippers ensure your bag and equipment will last. Evolution has evolved.

3 Way Access

Corona™ defines versatility with multiple ways to access your gear, making it ideal for street photographers, action sports photographers, or anyone who wants fast access to their camera.

Tripod

Fully removable tripod attachment straps

Rain Cover

Every Corona™ ships with a form-fitted seam-sealed rain cover

Sling or Backpack

Choose the quick access of a single shoulder strap, or the stability of two backpack straps

Lightweight

Ten uniquely engineered foams optimize protection and comfort to keep the pack light and volume efficient

Arc System

New Arc attachment points accept any Arc add-on, like lens cases and flash pouches. (Arc cases sold separately).
