

PACKAGE CONTENTS

- 1-Outlet Surge Protector
- *Quick Setup Guide*

FEATURES

- Ideal for use with single, stand-alone devices like speakers, subwoofers, laptops, TVs, and more.
- Patented power protection system provides complete, dependable surge protection.
- True 3-line surge protector provides complete coverage for your equipment.
- Discreet design fits in standard wall outlets without blocking the adjacent plug.
- Full 15 A capacity for use with high-current devices.

OVERVIEW

- **Protected LED indicator:** Lights to show that your device is protected from power surges. If this LED doesn't light, your surge protector cannot absorb additional power surges and must be replaced.

USING YOUR SURGE PROTECTOR

- 1 Plug your surge protector into a standard, 3-prong 125V wall outlet.
- 2 Plug your device into the AC outlet on the surge protector.

Notes:

- If the protection LED does not turn on, your surge protector cannot absorb additional power surges or spikes. Replace your surge protector.
- The outlet remains on to provide continuous power.

SPECIFICATIONS

- **Dimensions without power cord (H×W×D):**
1.2 × 1.6 × 2.2 in. (3 × 4 × 5.5 cm)
- **Weight:** 1.9 oz. (53 g)
- **X3 Fireproof MOV**
- Electrical specifications:**
 - **Load rating:** 15 amps
 - **Line voltage:** 125 V AC @ 60 Hz
 - **Surge suppression:**
 - **Maximum energy dissipation:** 540 joules
 - **Maximum surge current:** 36,000 amps
 - **Surge protection:** 3 lines (L-N / L-G / N-G = 500 volts each)
 - **EMI/RFI noise filtering:** Up to 40 dB
 - UL-498A and UL-1449 certified

SAFETY INFORMATION

- RISK OF ELECTRIC SHOCK - Use only in dry locations and only indoors.
- DO NOT plug into another relocatable power tap.
- DO NOT “daisy chain” surge protectors.
- DO NOT plug into a 220 V outlet or power source.
- DO NOT use with any aquarium equipment.
- DO NOT use if correctly grounded outlets are not available.
- DO NOT install this device if there is not at least 30 feet (10 meters), or more of wire between the electrical outlet and electrical service panel.
- This device features internal protection that will disconnect the surge protective component at the end of its useful life, but will maintain power to the outlet – WHICH WILL BE UNPROTECTED. If you don’t want your equipment at risk, follow the manufacturer’s instructions for replacing the device.
- DO NOT use in any circumstance that would affect the operation or reliability of life support equipment, any medical applications, or patient care.
