# NORTON UTILITIES™

Cleans up, tunes up, and speeds up your PC

Norton Utilities™ cleans up and speeds up your PC to help it run like new. It finds and fixes Microsoft® Windows® issues to prevent PC freezes, crashes, slow downs, and loss of your Stuff. It helps your PC start up faster. It repairs and optimizes your Windows registry to improve stability and launch programs quicker. It even cleans up your hard drive to boost overall PC performance and give you more disk space for your Stuff. Best of all, it gives you step-by-step guidance on how to make your PC run like new again.

FEATURES

- **NEW! System Dashboard:** Shows you step-by-step how to get your computer to run like new again.

- **NEW! Duplicate File Finder:** Finds all of the duplicate files scattered across your computer's hard drive, so you can remove them and free up disk space for more of your Stuff.

- **NEW! Application Uninstaller:** Removes the programs you don't use or take up too many resources.

- **Speed Disk™:** Brings together (defragments) and reorganizes (optimizes) files and data that have become scattered across your hard drive.

- **Disk Doctor:** Scans your hard drive and alerts you to problems that can cause computer errors and crash your hard drive.

- **Disk Cleaner:** Permanently erases all record of your computer and Web activities to protect your privacy.

- **Registry Cleaner:** Helps eliminate Windows Registry problems that can slow down your PC, trigger error messages, and cause Windows to crash.

- **Registry Defragmenter:** Removes gaps, free space, and corrupt files in your registry and compacts it to free up system memory and make your PC start up faster.

- **Registry Restore:** Makes a backup of the registry before making any repairs so you can easily undo them if necessary.

- **Startup Manager:** Lets you choose what programs load automatically when Windows starts to free up memory and improve PC startup time.
