true glow®

Sonic Facial Brush for professional results

3 speeds • 60-second timer • Charging stand

Getting Started

1. Wet your face and apply sufficient cleanser to the wet brush head.
2. Turn the brush on and select desired speed. We recommend starting on LOW and increasing speed to HIGH, depending on how your skin reacts to treatment.
3. **Do not press the brush hard against your skin as it will reduce the motion and effectiveness.** Keep the brush in light contact and flush against the skin.
4. Move the brush in a slow circular motion around your face. Let the sonic oscillation do the cleansing. NOTE: Do not apply treatment close to the eyes to avoid risk of injury.
5. When finished, rinse face with water and dry your skin with a towel.
6. After each use, rinse brush head and wipe the brush handle with a damp cloth to remove any oils or cleansers used during treatment. Be sure you keep the charging contacts on the sonic brush clean to keep the unit charging properly.

10 SECONDS AT EACH ZONE

1 CYCLE = 60 SECONDS

SENSITIVITY AND CAUTIONS SPECIAL CAUTIONS FOR DELICATE AREAS

The True Glow® Sonic Facial Brush is a facial cleansing device that is intended to help you get clean and healthy-looking skin. The True Glow® Sonic Facial Brush is not a medical device and is not intended to be used to treat any medical conditions, such as acne.

If you are under a doctor's care for any skin condition or if you think you have very sensitive skin, please consult your physician before use.

If rash or irritation occurs, stop use.

We recommend not sharing the brush heads; each user should have their own brush head.

Do not use with exfoliation creams that contain rough or jagged particles.
