Retro Games Ltd systems carry a standard 12-month warranty. Accessories sold separately carry a three-month warranty. The warranty covers any manufacturing or workmanship defects and these will be repaired at no charge. The warranty does not cover physical damage sustained after production.

Les systèmes de Retro Games Ltd sont couverts par une garantie standard de 12 mois. Les accessoires vendus séparément sont couverts par une garantie de trois mois. La garantie couvre tous les défauts de fabrication et ceux-ci seront réparés sans frais. La garantie ne couvre pas les dommages physiques subis après la production.

Los sistemas Retro Games Ltd tienen una garantía estándar de 12 meses. Los accesorios que se venden por separado tienen una garantía de tres meses. La garantía cubre cualquier defecto de fabricación o mano de obra y estos serán reparados sin cargo. La garantía no cubre ningún daño físico sufrido después de la producción.

FCC/ISED REGULATIONS

This device complies with Part 15 of the FCC Rules and standards of Innovation, Science and Economic Development Canada.

Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the manufacturer could void the user's authority to operate this device.

This equipment has been tested and found to comply with the limits of a Class B digital device, pursuant to part 15 of the FCC Rules and the Canadian ICES-003 Class B specifications. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician.
