

PCAM-DPLLP-N

Universal Back-Up License Plate Camera with Dynamic Parking Lines

Dynamic parking guidelines simplifies reversing.
Adjustable camera positioning increases viewing angles.

Relax in reverse. PCAM-DPLLP features dynamic parking lines that move when you move. Simplifying maneuvering in even the most complex situations, the parking lines give you a clear understanding of the trajectory of your car before you reverse. The durable, water resistant camera features built-in motion sensors, once the vehicle starts moving the camera senses the movement and guidelines move to show the path of the vehicle.
