

NATIVE UNION

SMART CHARGER

Super slimline dual USB power adapter with smart IC power management

Energy efficient 2 USB-A ports (up to 2.4A per port) with a total output of 3.1A

Smart IC technology auto-detects your device's output so it's always charging at maximum capacity.

Slim and compact design, less than 12mm, with vertical USB-port access and 90° degree foldable pins, makes SMART perfect for space saving and travel.

Non-invasive LED power light emits a subtle glow when plugged in. Sophisticated circuit design with over-current protection (OCP), over-voltage protection (OVP), and short circuit protection (SCP).
