Monitor Desk Mount Arm with Full Motion Arms

ALL THE BELLS AND WHISTLES FOR YOUR WORKSTATION

This single monitor desk stand elevates your computer screen to eye level to deliver ergonomic performance with style. Elevating the monitor from your desktop allows better posture to prevent eye strain, neck and back pain that can be caused by improper desktop and monitor arrangement. This mount also saves valuable desktop space by elevating the monitor over your desk.

- This full motion monitor mount allows you to adjust the position and angle of your monitor. The arm can swivel 180 degrees. The monitor plate tilts up and down and rotates between landscape and portrait modes.
- Heavy-duty C-clamp is easy to install and safely connects the mount to your desk.
- It is a universal fit to virtually all monitor brands and models on the market with VESA bolting patterns.

HEALTHY LIFESTYLE. Turn your desktop into an ergonomic environment.

EASY INSTALLATION. Assembles in minutes. All hardware included.

HEAVY-DUTY. Materials and design optimized for durability.
