Ceiling light

41004/48/U7

Light for your moments, from sunrise to sunset

Include a Philips Hue White ambiance fixture in your Philips Hue system and feel better with natural light that helps you wake up, energize, concentrate, read and relax. Connect it to the Philips Hue bridge and control it your way.

Turn on your moments

- Warm white to cool bright daylight
- Energize, concentrate, read and relax with light
- Wake up gently to your personal sunrise

Turn on your peace of mind

- Control your lights, your way

Easy, reliable and future proof system

- Connect up to 50 Philips Hue lights

PHILIPS

Highlights

Create your ambiance

Set the right ambiance for any moment with a range of beautiful, natural white light. Use the app to set any shade of white light, from cool energizing daylight to relaxing warm white light. Take control and set the ambiance. Not too bright. Not too dark. Just right.

Light for your well-being

Light influences our mood, behavior, alertness and routines. Through the app, you can set the light that is optimal for your moment. Philips Hue helps you to energize, concentrate, read and relax. Customize your daily routines into

moments you can enjoy. Feel different. Feel better.

Wake-up naturally

Ease your sleeping routine and wake up gently for a fresh start of each day. Philips Hue will help get you out of bed in a nice way. The gradually increasing light intensity gives you the feeling you are waking up naturally with sunlight - rather than the rude awakening of an alarm ringing.

Smart control

Connect your Philips Hue lights with the Bridge and start discovering the endless possibilities. Control your lights from your smartphone or

tablet via the Philips Hue app, or add switches to your system to activate your lights. Set timers, notifications, alarms, and more for the full Philips Hue experience.

Expand your ecosystem

You can connect up to 50 lights and 7 Hue dimmer switches to the Philips Hue bridge (not included). Simply begin with any of the available starter kits and start adding Philips Hue products. You can then control your lights at the swipe of a finger with the intuitive Philips Hue app for iOS and Android smart devices. Philips Hue is based on ZigBee, a low power, safe, and reliable technology to control your lights. New features and improvements are continuously added to the system. Updates to both software and firmware are done wirelessly and seamlessly directly to your Philips Hue product

Specifications

Design and finishing

- Material: metal, synthetics
- Color: aluminium
