

## SmartCharge Halo The Smarter Way to Drive

### Roav SmartCharge Halo

Roav's smart car charger brings high-speed charging and smart utility to any vehicle; just plug in to your car's cigarette lighter-outlet to enjoy rapid charging from 3 USB ports. A dedicated app tracks your car's battery, finds where you parked, and adjusts the color of the LEDs on your charger.

Bluetooth: V4.1, BLE

USB Ports: 3

Quick Charge Output: 3.6V-6.5V / 3A, 6.5V-9V / 2A, 9V-12V / 1.5A

PowerIQ Output: 5V / 2.4A (Max)

LED: 16,000 Customizable Colors

### Find Your Car

The Roav Charger app saves your car's location to seamlessly guide you back to where you parked.

### Battery Monitor

Log the status of your battery every time you start your car to know when it needs to be replaced.

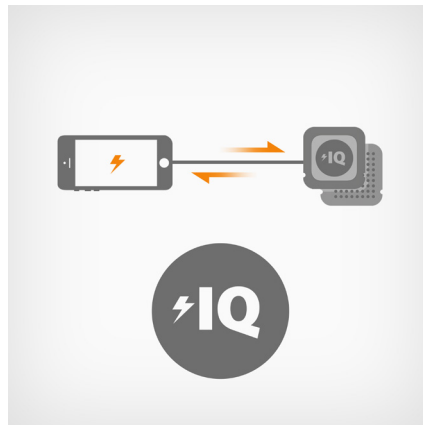

### Instant Atmosphere

Select any color via the Roav Charger app and 16,000 colored LED lights to match your car's interior lighting.

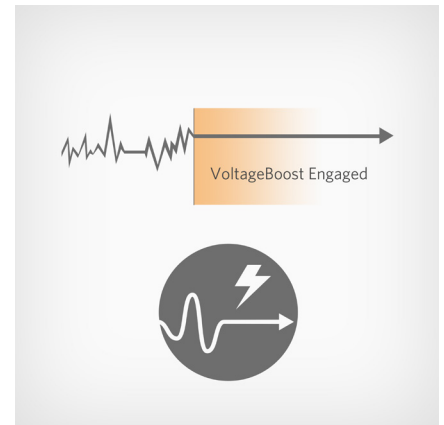

### Quick Charge 3.0

The world's fastest phone and tablet charging technology. Up to 4x faster than standard 1A chargers—able to charge compatible devices up to 80% in just 30 minutes. Completely backwards compatible with all versions of Quick Charge.

### PowerIQ Technology

By intelligently identifying any connected device, PowerIQ delivers the optimum, high-speed charge to all devices. Includes Apple and Android phones and tablets as well as cameras, consoles and more.

### VoltageBoost Technology

Smart technology that determines when charging output is encountering resistance. By automatically compensating for this, VoltageBoost ensures charging speeds remain fast-regardless of cable or device.
