①

Installation

1. Installation - Set iPad on the magnetic stand as shown below

2. Removal - Pull up to remove your iPad from the stand

3. Mobility - You can place the iPad in the case and fold the case for easy portability

Power on indicator

1. Turn ON, the red light is always on for 1 second and then goes off. When the power is less than 20%, the red light flashes slowly to indicate low battery. Turn OFF, the keyboard stops working.

Bluetooth connection method

a. Turn ON, the red light is always on for 1 second and then goes off, Bluetooth indicator flashes to enter pairing state.

b. Re-pairing, long press key for 3 seconds to enter pairing mode, blue light flashes 3 times per second to enter pairing mode, the fast broadcast time is 180 seconds, blue light is off when the pairing is successful; if the pairing is not successful, the backlight and other indicators all go off and the keyboard goes into sleep mode.

Reconnect bluetooth indicator

3. After the first pairing is successful, turn off the keyboard and turn on the keyboard, and then automatically enter the bluetooth reconnection mode. The blue light flashes 3 times per second to enter the reconnection state. The blue indicator turns off after successful connection within 5 seconds. If the connection is not successful, the backlight and other indicators are all off, and the keyboard enters sleep mode.

Charging indicator

4. When Type-C charging, the red light is always on. The red light is off when fully charged, and the green light is always on. Low battery indicator: When the battery power is less than 20% (3.2v), the red light starts to flash slowly (1 time per second) until the keyboard is turned off.

CapsLk indicator

5. Uppercase/lowercase ON/OFF, the white indicator light is always ON/OFF, after connection to an iPad, open Settings - General - Physical Keyboard - Turn off using the caps lock key to switch languages.

Keyboard enter sleep mode

6. The keyboard stops pairing if the user does not operate the keyboard within 3 minutes or when the keyboard is abnormally connected, the backlight and other indicators are all off, and the keyboard enters sleep mode; after pairing and normal use, the keyboard does not operate for 30 seconds, the backlight is off, and the keyboard enters the standby state. If the keyboard is not used for 10 minutes, it enters sleep mode and can be woken up by pressing any key on the keyboard (the touchpad will not wake it up). When the battery power is lower than 15% (3.1-3.5v), the backlight is turned off; when the battery power is greater than 20%, the backlight is turned on.

LIMITED WARRANTY

Adesso provides a one year limited warranty for all of its products against defects in material and workmanship.

During this period, Adesso will repair or replace any product which proves to be defective. However, Adesso will not warranty any product which has been subject to improper freight handling, shipping abuse, neglect, improper installation or unauthorized repair. The warranty will not cover products installed with components not approved by Adesso and products where the sealed assembly trace has been broken.

If you discover a defect, Adesso will, at its option, repair or replace the product at no charge to you provided you return it during the warranty period with freight charges pre-paid to Adesso. Before returning any product, you must obtain a Return Merchandise Authorization number (RMA). This RMA # must be clearly marked on the outside of the package you are returning for warranty service. Be certain to also include your name, shipping address (no PO Boxes), telephone number, and a copy of the invoice showing proof of purchase in the package.
