The Future of WiFi Has Arrived with 4x the Performance of AC*

The MR9600 Max Stream™ is a super powerful dual-band WiFi 6 router perfect for those who want true gigabit speeds, more range, and pure gaming power throughout their entire home. Powered by Linksys Intelligent Mesh™ technology and 6 Gbps of speed, it's 4x* faster than WiFi 5 routers, eliminates dead zones, and isolates your network to eliminate interference. If your needs change and you want to grow your network, this future-ready router expands by adding any Linksys mesh-compatible products. The MR9600 is so easy to set up with the Linksys app that you'll be streaming 8K video in a matter of minutes.

*As compared to client devices connecting to an AC 2x2 router that does not support 160 MHz.

Features and benefits

- **4x Faster Speed***
The Max-Stream Dual-Band AX6000 Router uses the latest WiFi 6 (802.11ax) standard to deliver true gigabit speeds throughout your entire home—up to 6 Gbps with 8-stream connectivity.
*As compared to client devices connecting to an AC 2x2 router that does not support 160 MHz.
- **Bye Bye Dead Zones**
Powered by Intelligent Mesh™ Technology that adapts to your WiFi needs, your devices will always have a full-strength signal throughout your entire home.
- **Minimizes WiFi Congestion**
Eliminate interference from neighboring wireless networks with advanced WiFi 6 technology that can isolate your network, reduce congestion, and deliver the strongest, clearest WiFi signal available.
- **100% Backward-Compatible**
Works with all existing WiFi enabled devices from smartphones, tablets, laptops, smart home devices, streaming devices, and more.
- **More Range than WiFi 5**
Intelligent Mesh™ technology, combined with WiFi 6, delivers gigabit WiFi speeds to every corner of your home, including the backyard and outdoor smart home devices.
- **Smarter Security**
With automatic firmware updates, Parental Controls, and separate guest access, your network will always remain safe, secure, and up to date.

Linksys App

Package Includes:

- MAX-STREAM AX6000 Router
- Quick Start Guide
- Ethernet Cable
- Power Adapter
- Regulatory and Warranty Documentation

Tech Specs:

WiFi AX6000, 1147 Mbps (2.4 GHz Band) + 4804 Mbps (5 GHz Band) IEEE 802.11a/b/g/n/ac/ax
Linksys Advanced Beamforming+ technology

Processor
1.8 GHz Quad-Core

Antennas for Expanded Coverage

Four dual-band external adjustable (non-detachable) antennas with high-power amplifiers to provide 8 simultaneous streams

Wired Connectivity for WAN and LAN Connectivity
5 Gigabit Ethernet Ports: 1x WAN, 4x LAN

Easy setup and network control with the Linksys app

Security

WPA2-Personal, WPA3-Personal, WPA3/WPA2-Personal Mixed

Dimensions
284 mm x 169 mm x 60 mm (Antennas down)

Required for setup

1. Internet connection with a modem or modem-router
2. Supported iOS or Android™ devices with data connection. See www.linksys.com/veloprequirements

Download the Linksys app at linksys.com/app

Specifications are subject to change without notice. Actual performance may vary, including lower wireless network capacity, data throughput rate, range, and coverage. Performance depends upon many factors, conditions and variables, including building materials and construction, volume of network traffic, mix of wireless products used, interference and other adverse conditions. An active, customer-purchased Internet Service Provider broadband account is required for connection of this router and other connected computers and devices to the Internet. Some devices may require additional wireless adapters that match this product's maximum WiFi standard or an Ethernet cable to connect to this router. Maximum performance derived from IEEE Standard 802.11 specifications.
