## UC-PS19 CONTEMPORARY STYLE UNDER CABINET SIZES: 30" | 36"

### PRODUCT DESCRIPTION

Meet the HausOne: the range hood that thinks before you do. Powered by HauSmart™ Technology, it senses when you start cooking, flips on the lights, and adjusts the fan speed like it's reading your mind (or at least your stovetop). Crank up the heat, and both fans automatically unleash up to 860 CFM of clearing power. No buttons, no fuss. As the stove cools down, it politely shuts itself off. With dishwasher-safe filters, swap-ready GU10 bulbs, and a sleek touch panel that wipes down in a blink, it's proof that intelligence does belong in the kitchen, just not the kind that argues back.
