COLORTRAIL

RSDK4 | RSDK8 | RSDE4

**RGBW ROCK
LIGHT KITS**

The COLORTRAIL LED RGBW Rock Lights offer endless dynamic color combinations and patterns. Compatible with HORIZON10/12 and HEIGHT10® systems, you can adjust your lighting directly from your infotainment an can also be controlled via the Stinger enLIGHT10 App. The expandable daisy chain connection and 10ft extension cables make installation easy for larger vehicles. Featuring durable aluminum housing and rugged 3-pin watertight connections, these rock lights are built to withstand the toughest conditions.

Thanks to its flexible design, COLORTRAIL can easily fit into any space or configuration, making it perfect for everything from off-road adventures to boat lighting or showcasing your vehicle at a car meet. These lights are engineered for both style and longevity, turning heads wherever you go.

With COLORTRAIL, your ride will not only stand out but also be equipped with a high-performance lighting solution that is built to last.
