Product overview

- **Your best-looking gaming is ahead of you:** The days of underutilizing your games by playing on the lowest graphical settings are over. With a next-gen processor, as well as the latest graphics card and memory, your best-looking gaming is ahead of you.
- **When your machine breathes easy, so do you:** Your PC might not eat, sleep, and watch a questionable amount of Netflix and TikTok like you do, but like you, it does need to breathe properly to reach peak performance. Not only did we enlarge the bottom openings for more air intake, we also added additional rear trunk venting space, because when your machine breathes easy, so do you.
- **It's okay to expect immersion, we've got you:** Stop settling for PCs with dull visuals, painful input lag, and webcams that make you look like a PS2 character. With great, high refresh rate screens and a new webcam, it's okay to expect immersion, we've got you.
