

Bracketron's innovative PwrUp™ Automatic Charging Phone Holder quickly charges your phone while mounted for a seamless, high-tech hands-free driving experience. Infrared sensors automatically open the mount's arms as the phone approaches. Arms automatically retract when phone is placed in the holder—securing your phone. Works on dash and windshield and includes optional vent clip for additional mounting options.

FEATURES

- 15w Qi certified with 8mm charging distance to accommodate thicker phone cases
- Innovative sensor automatically closes arms when a Qi-enabled device is detected
- Includes dash/window and vent bases
- Fast-charge capable
- Tilt-and-telescope arm on dash/window base adjusts for perfect viewing angle
- QC 3.0 car charger and USB-C cable included

One (1) year limited warranty
