iTap Magnetic 2

Dashboard & Windshield Mount

The Tap Magnetic 2 dashboard and windshield mount is a sleek and powerful magnetic mounting solution that holds smartphones in any vehicle. Designed for maximum convenience, the iTap 2 features two rare-earth magnets that provide a strong hold for all smartphones and case combinations. A Metal Plate Kit includes small and large metal plates and a Protective Film that attaches directly on the back of the smartphone or case, and does not interfere with wireless charging when positioned accordingly. Install iTap Magnetic 2 on

textured or smooth vehicle dashboards with a super strong Suction Cup and a Dashboard Pad that secures the mount in place. Once installed, simply tap the smartphone on the Magnetic Mounting Head to hold the device while driving. Adjust viewing angles in seconds with a rotating ball joint that swivels for added convenience. The iTap Magnetic 2 dashboard and windshield mount from iOttie is compact and powerful to safely enhance the driving experience on the road.
