

Cima[®]
by Stewart Filmscreen

FOR INTERNATIONAL DISTRIBUTION

Stewart[®]
F I L M S C R E E N

The leader in high-quality, custom, application-specific projection screen solutions is proud to introduce the “top of the class” in standard sized commercial and residential projection screens.

THE Cima ADVANTAGE:

Designed and manufactured in the USA by Stewart’s award-winning team, Cima targets an audience that is broader and less need specific. The utilitarian design and features of the Cima product line address the needs of most common residential and commercial 2-piece projection applications without compromising the superior performance, quality and durability you have come to expect from Stewart. The key difference is, while Stewart professional projection screens are custom-engineered for optimal performance within a given application, Cima is only available in standard sizes and with a limited selection of high quality screen materials. Cima utilizes newly developed, highly efficient, environmentally friendly, patent pending methods of production, ensuring the customer will receive the highest performance at the best value. With Cima, you will receive a high quality, dependable performance for many standard commercial or residential applications at a competitive price. And, of course, when your application requires a higher standard of performance, all the way up to perfect image fidelity from a screen that is finely tuned to the environment, the Stewart team stands ready to assist with the highest quality, most professional projection screens in the world...by Stewart Filmscreen. Welcome to the Stewart Family!

Actual Dealer prices may vary. Professional installation is recommended.
Installation is not included in MSRP. Prices subject to change without notice.

COMMON APPLICATIONS, UNCOMMON PERFORMANCE!

Cima by Stewart Filmscreen offers Stewart quality in standard configurations and sizes for commercial and residential projects that are less need specific.

- Above Ceiling ElectriScreens
- Below Ceiling ElectriScreens
- Fixed WallScreens
- White screens for rooms with lighting control
- Gray material for mitigating the effects of high ambient light

Museums and Galleries

Dedicated Home Theaters

Conference Rooms

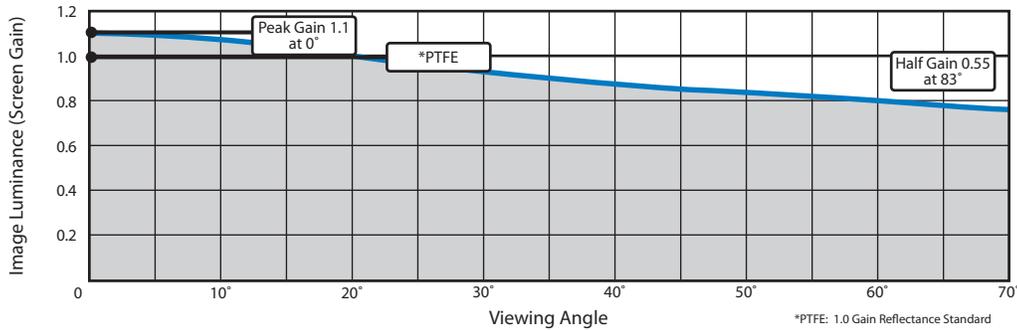

Classroom/Auditorium

Family Rooms

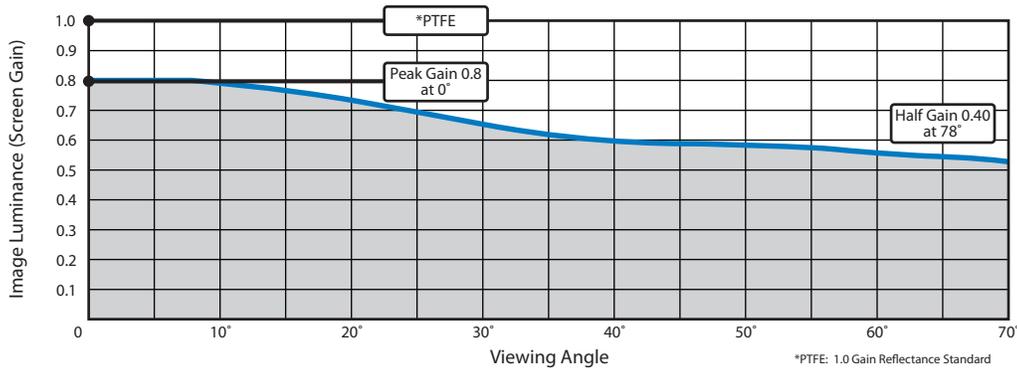

NEVE™

FEATURES:

- Material color: White
- Gain: 1.1
- Half gain viewing angle: 83 degrees
- Best used in controlled light environments
- Washable and mildew resistant
- Flame retardant
- 4K+ resolution rating
- Greenguard™ Certified

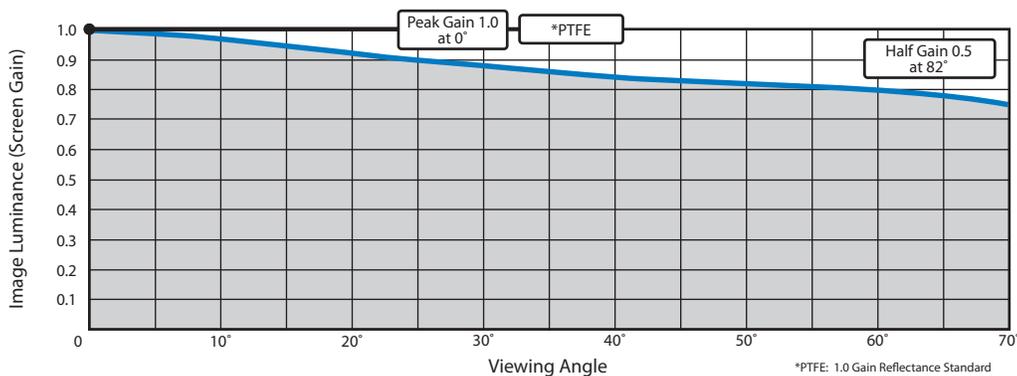

TIBURON™ G2

FEATURES:

- Material color: Gray
- Gain: 0.8
- Half gain viewing angle: 80 degrees
- Great in higher ambient light environments
- Washable and mildew resistant
- Flame retardant
- 4K+ resolution rating
- Greenguard™ Certified

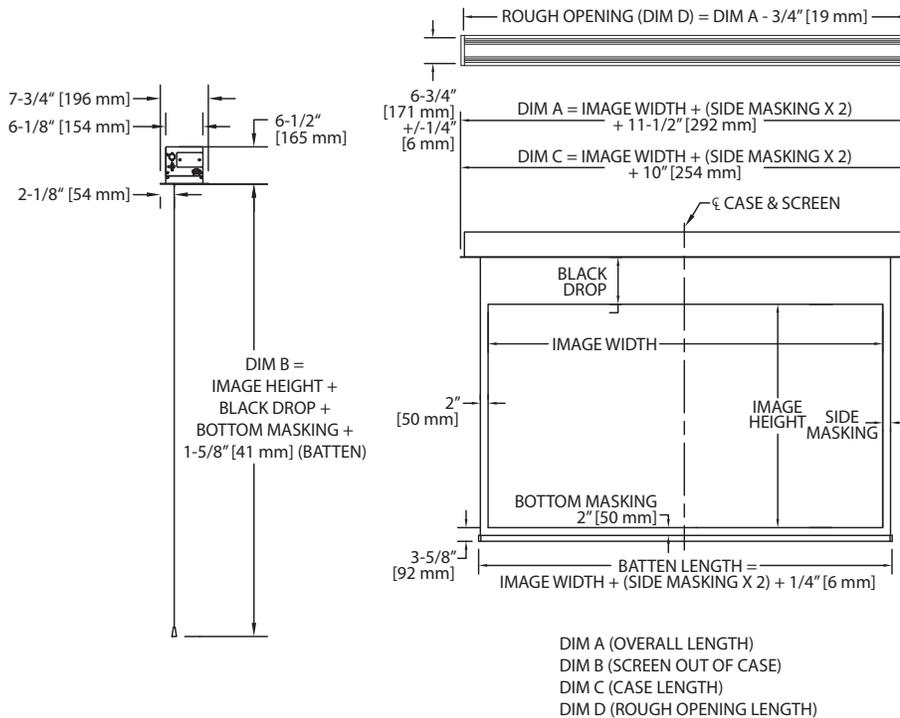

ESTERO™ 100

FEATURES:

- Material color: White
- Gain: 1.0
- Half gain viewing angle: 82 degrees
- Three-ply reinforced material hangs evenly without tensioning
- Washable and mildew resistant
- Flame retardant
- Greenguard™ Certified

NON-TENSIONED ABOVE-CEILING PRICING & SPECIFICATIONS

SPECIFICATIONS	
Electronically controlled screen system	Included
Aluminum extrusion housing/case	Included
3-1/4 inch roller tube with insulated drive	Included
Matte black over-scan border*	Included
SCREEN MOTOR	
120 Volt	Optional
220 Volt	Included
SCREEN CONTROL	
Screen Trigger Interface controller with 3-button low-voltage keypad	Included
Cima-Link Controller (IMC-100C)	Optional

* preset at 2", adjustable on site

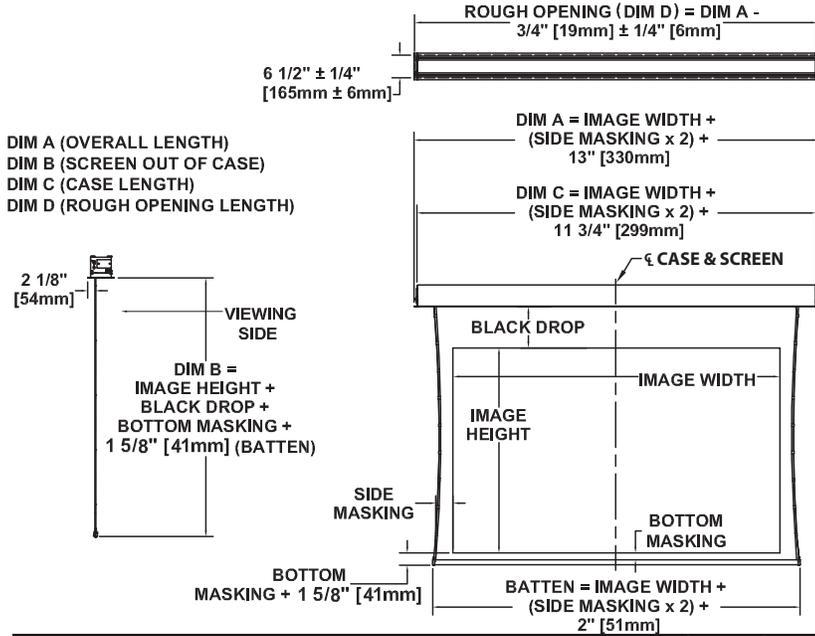

- FEATURES:**
- Choose from two (2) aspect ratios: 16:9 or 16:10
 - Six or seven (6-7) standard sizes per aspect ratio
 - Housing color: White
 - Optional Cima-Link Controller packages for Infrared, Ethernet or RS232 connectivity (see page 8 for information)
 - Mounting hardware included
 - Adjustable black drop

All Cima NT screens feature Estero 100 matte white screen material.

OPTIONAL CONTROL PRICING & SPECIFICATIONS

The Cima ElectriScreens are available with additional screen control options depending on the application. The optional Cima-Link controller packages include Infrared, Serial RS-232 and Ethernet. See the chart below to select the optional control system to complement your Cima ElectriScreen.

Control Option	Description	MSRP
Cima-Link Control Upgrade	The Cima-Link control includes a control board (IMC-100C), keypad, and RJ25 connector cord. The Cima-Link is an internal AC motor controller designed to control your Cima projection screen. It can be integrated with an optional infrared remote, additional Cima screens, or 3rd party control systems.	Subject to importation costs and duties. Contact your distributor for suggested retail pricing for your market and/or in local currency.
Cima-Link Infrared Kit Package	The IR kit includes the modular plug-in infrared (IR) sensor and hand held (IR) transmitter. The Cima-Link Control is required to use this IR kit.	
Cima-Link Serial RS-232 Package	The Serial RS-232 package includes the RS-232 serial converter (IBT-100) with a 4' patch cord. The serial control is used to connect to a computer or other 3rd party control systems. The Cima-Link Control is required to use this option.	
Cima-Link Ethernet Package	The Ethernet package includes a 4' patch cord and the IP device (eNode) which is a modem for IP connectivity. This option can be used for controlling multiple Cima ElectriScreens over IP connection. The Cima-Link Control is required to use this option.

PerfOrado

Unprecedented audio and visual performance in a high quality, multi-use screen!

PerfOrado is a perforated version of the Cima Neve screen material, offering an acoustically transparent screen option.

- Allows for placement of speakers behind the screen for a more authentic sound reproduction, or for a completely concealed in-wall speaker system for a clean overall room aesthetic
- Precision-punched holes (similar to MicroPerf X²) provide outstanding uniformity for an acoustically transparent screen
- Smaller hole diameter enables better resolution at shorter viewing distances than other perforated screens

* Standard configurations above apply to Cima Fixed Frame screens with Neve screen material. Perforations are calibrated to work with most single chip DLP projectors, without producing moiré artifacts. Other configurations for models calibrated for 3-chip projectors are available on a limited basis. Please contact a Stewart representative for pricing and availability.

LIMITED ONE YEAR WARRANTY

STEWART FILMSCREEN CORPORATION (Stewart) warrants its Cima by Stewart Filmscreen products to the original purchaser only, to be free from defects in materials and workmanship for a period of one(1) year from the date of purchase by the original purchaser or eighteen (18) months from date of manufacture, as defined in the serial number, provided they are properly operated and maintained according to Stewart instructions and are not damaged due to improper handling or treatment after shipment from the factory. This warranty does not apply to equipment showing evidence of misuse, abuse, or accidental damage, including neglect caused by improper installation (i.e. proximity to hot lights, exposure to extreme heat or cold, exposure to excessive humidity, etc.). Stewart on-site warranty repair services are not available for this product.

Stewart's sole obligation under this warranty shall be to repair or to replace (at Stewart's sole discretion) the defective part of the merchandise. This warranty expressly does not cover any costs of removal, installation, framing, or other costs incident to replacing the screen or returning it to Stewart. Returns for service should be made to your Stewart dealer. If it is necessary for the dealer to return the screen or part to Stewart, transportation (freight) expenses to and from Stewart are payable by the purchaser. Stewart is not responsible for damage in shipment. To protect yourself against damage or loss in transit, insure the product and prepay all transportation expenses.

This warranty is in lieu of all other warranties, expressed or implied, including warranties as to fitness for use and merchantability. Any implied warranties of fitness for use, or merchantability, that may be mandated by statute or rule of law are limited to the one (1) year warranty period. This warranty gives you specific legal rights, and you may also have other rights which vary from state-to-state. In no event will Stewart be liable for sums in excess of the purchase price of the product. No liability is assumed by Stewart for expenses or damages resulting from interruption in operation of equipment, or for incidental, direct, or consequential damages of any nature.

In the event that there is a defect in materials or workmanship of a Cima by Stewart Filmscreen product, you may contact our Customer Service Department at 1161 W Sepulveda Blvd, Torrance, California 90502-2797 (310-784-5300) Toll free (800-762-4999).

IMPORTANT: This warranty shall not be valid and Stewart shall not be bound by this warranty if the product is not operated and maintained in accordance with Stewart's written instructions.

Stewart Filmscreen Corporation shall not be liable for any and all consequential damage(s) occasioned by the breach of any written or implied warranty pertaining to the sale of Cima by Stewart Filmscreen product in excess of the purchase price of the product sold.
