

Magellan® MiVue 480D

2.7" Dual HD Dash Camera

The Magellan MiVue 480D DashCam delivers unsurpassed security and safety to your driving experience. This forward-facing, Super HD dash camera includes a rear facing HD camera to deliver crystal clear video recordings of what is happening in front and behind your vehicle. Whether recording unexpected moments or capturing important video and data details of an accident, you'll always be prepared. And, the MiVue 480D features Driver Assistance Alerts designed to improve situational driving awareness while on the road.

Includes Rear Facing HD Camera

Record 1080p HD video out your rear window. Enjoy peace of mind knowing you'll have an accurate record of events in front and behind your vehicle.

1296p Super HD

Front facing dash camera records video in Super HD (2304x1296) for a crystal clear account of all events.

Driver Assistance Alerts

Receive audible and visual warnings for potential driving hazards like Lane Departure, Forward Collision, Driver Fatigue, and more.

Parking Mode

MiVue 480D will wake up and record on any impact it detects while the car is parked. Point the camera toward the most likely impact location to capture events.

Wide Angle Lens

The 140° wide angle lens provides an enhanced peripheral view to record the entire street - see the whole picture.

Impact Sensor

The dash camera automatically saves and locks video 15 sec before and up to 50 sec after an impact is recorded.

GPS, Date and Time Stamp

Conveniently view the GPS, date and time info when playing back video.

2.7" Display

Large 2.7" hi-definition display makes it easy to play back and watch recorded footage on the unit.

MiVue Manager

Browse recorded video and review for post-travel or accident analysis. PC and iOS compatible.

Rotating Camera

Easily rotate the camera to record both video and audio events on the driver's side or anywhere else the action is taking place.

Camera Mode

Remove the MiVue 480D from its mount and use it to capture still images of vehicle damage for a complete record following traffic incidents.
