

**ROCCAT**  
**TUSKO**

**ACROSS - THE - BOARD  
WIDESCREEN BAG**

## INFORMATION

The ROCCAT Tusko is the perfect partner for LAN parties. It isn't just large enough to accommodate a flatscreen monitor, it's also got enough space for your keyboard, mouse and other computer peripherals. Thanks to the high quality materials, the secure fastening system and the hard plastic plate everything is effectively protected against shocks, water and dirt – ready for safe travel. The bag is available for 20-24" widescreen monitors.

### CLIP'N'GO SYSTEM

The intelligent Clip'n'Go system secures the monitor at four points by using rugged snap hooks and straps, hence preventing it falling out or even sliding around.

### EXTRA KEYBOARD HOLDER

The wide-screen bag has 4 additional compartments for all your computer peripherals as well as an extra holder for your keyboard.

### PROTECTION PLATE

To effectively protect your flatscreen or widescreen monitor against shocks and damage, the bag is equipped with an integrated rigid plastic plate, making it super sturdy.
