

weBoost products support the latest in 5G technology.

Best possible cell signal—anywhere.

With its unparalleled uplink-output power, Drive Reach gives you the freedom to stay connected—wherever the road takes you.

The **Drive Reach** by weBoost, our most powerful, in-vehicle cell signal booster yet. It works with any cell phone or cellular-connected devices; supporting multiple users in a passenger vehicle.

With a game-changing 29.5 dBm in uplink-output power, weBoost's Drive Reach delivers the strongest cell signal possible on all available network speeds. Driver and passengers alike experience fewer dropped calls, better voice quality, greater hotspot capability, and faster internet connectivity. Designed for intuitive, tool-free installation, Drive Reach comes with reliable SMA connections, and Drive Magnetic Outside Antenna.

Drive Reach is compatible with all cell phones, hotspots, cellular-connected tablets, and other cell devices on all US mobile carriers—including Verizon, AT&T, T-Mobile, and more.

DRIVE REACH

470154

Key Features

weBoost's most powerful booster, Drive Reach is engineered to provide optimal cell signal coverage; even in remote locations far from towers.

Sleek metallic red exterior with a unique fin design for added surface area; allowing it to displace excess heat and sustain peak performance.

A clean-looking install; the slim booster fits under the driver's seat and thin cables are safely hidden under floor mats and stripping—leaving leg and storage room clear.

Booster is equipped with a plug-in, CLA power supply, featuring its very own 12-volt, 1.8-amp.
