Koda 2 is a next-generation gas-powered oven, with powerful engineering that delivers effortless cooking results. Designed to cook pizzas - and a whole lot more - easily straight out of the box.

Quick facts

- Preheats to cooking temp in 15 minutes
- Makes stone-baked pizza in just 60 seconds
- Hits a top temperature of 950 °F/500 °C
- Effortless gas-powered cooking
- Use outdoors all year round and protect with **Carry Cover for Koda 2** when not in use
- Compatible with Ooni cookware products

Spacious 14" Cooking Area

Enjoy 21% more cooking space.* With a tapered baking stone that provides an extra two inches at the mouth of the oven, loading food and launching pizza couldn't be easier.

Ooni G2 Gas Technology™

The next-generation gas system uses patent-pending technology for precision-tuned, tapered flames. Creating incredibly even heat across the entire cooking surface.

Powerful and Portable

The Koda 2 is portable at just 15kg / 33 lbs.

Precision Controls

A finely calibrated dial lets you go low for pan-style and NYC-style pizzas, or blazing hot for true Neapolitan-style.

Stainless Steel Pizza Ledge

A 2" stainless steel pizza ledge allows you to rest and inspect your food before popping it back in the oven or taking it out.

15mm Baking Stone

The thick baking stone retains more heat for expertly cooked pizza bases.

Metal Visor Shield

The metal visor shield works with the precision-engineered internal shell to minimise heat loss without obstructing the view inside the oven.

Ooni Connect™ Digital Temperature Hub Compatibility

Get connected and keep an eye on temperatures inside your Koda 2. Also includes a digital probe for checking the temperature of roasting meats. Please note, the Ooni Connect™ Digital Temperature Hub is an add-on accessory sold separately.

*Compared to Koda 12.
