

# HP ProBook 11 EE G2 Notebook PC (4HY12UP)

## Overview

### Teaching and learning machine

Compose, create, and inspire with the durable HP ProBook 11 EE. Loaded with Windows 10[1] Pro and HP School Pack tools, it's built for students.

### Powered to perform

Use the power of 6th Gen Intel® Core™ processors[2] to engage students for hours without interruption thanks to long battery life.

### Teaching and learning made easy

Teaching and collaboration is easy with the HP School Pack software suite designed to enhance the learning experience.

### Built with students in mind

Built MIL-STD tough for the classroom.[3] Bumps, bangs, and minor spills are no big deal for this portable and durable notebook featuring a reinforced chassis with co-molded rubber trim, and a spill-resistant keyboard and touchpad.

# Features

## Let nothing stand in your way

Help protect from today's security threats and maximize management and productivity features for schools with Windows 10 Pro.[1]

## Visual and touch learning

See clearly on an 11.6" diagonal HD WLED display with optional capacitive touch.

## Great collaboration

Communicate via HD webcam, DTS Sound™, two speakers and a background noise suppression mic.

## Quick connections

Study anytime and anywhere with a smooth internet connection.[4]

## Ports of all sorts

Multiple reinforced ports not only support multiple peripherals but are built to last.

## Helpful extras

Notebook charging carts, carrying cases, replacement batteries, security locks, and spare adapters make life—and learning—easier for students and teachers.

[1] Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, software or BIOS update to take full advantage of Windows functionality. Windows 10 is automatically updated, which is always enabled. ISP fees may apply and additional requirements may apply over time for updates. See <http://www.microsoft.com>.

[2] Multi-Core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. Intel's numbering is not a measurement of higher performance.

[3] MIL STD 810G is not intended to demonstrate fitness for U.S. Department of Defense contract requirements or for military use. Test results are not a guarantee of future performance under these test conditions. Damage under the test conditions or any accidental damage requires an optional HP Accidental Damage Protection Care Pack.
