

SONY

XBR-85Z9G

85" class (84.6" diag.) 8K HDR TV

Step into the world of 8K with Sony's best processor ever. Sony's MASTER Series continues to change the way you watch TV with the Z9G 8K HDR LED TV. With four times the resolution of 4K HDR, picture is richer in color and clarity than ever before. Upscale anything you watch to the heights of near-8K HDR quality with the Picture Processor X1 Ultimate and Backlight Master Drive.

Bullets

- MASTER series TVs are meticulously engineered for excellence with the latest and greatest in TV technology
- Everything is upscaled to get close to 8K HDR with the Picture Processor X1™ Ultimate and 8K X-Reality PRO^{1,2}
- 8K X-tended Dynamic Range™ PRO 20x contrast range provides a wider range of brightness³
- Acoustic Multi-Audio produces an immersive Sound-from-Picture Reality™ experience
- 8K HDR¹ - HDR10, HLG, IMAX Enhanced⁴ and Dolby Vision™⁵ support for incredible detail and clarity
- X-Wide Angle technology makes picture and color look great from anywhere in the room
- On-screen action and motion look better than ever with X-Motion Clarity™ technology and native 120Hz refresh rate.
- Enjoy smooth and vibrant colors with TRILUMINOS™ Display & 8K HDR Super Bit Mapping
- Android™ TV with the Google Assistant built in gives you a genius TV with hands-free voice search⁶
- Enjoy studio-quality Netflix content with Netflix Calibrated Mode¹⁰

Features

Masters of picture quality

Sony's MASTER Series TVs are the very best of Sony, created to exemplify the goal of faithfully conveying the creator's intent on-screen. These TVs are engineering marvels that are meticulously designed with the latest and greatest proprietary TV technology. The MASTER Series TVs deliver Sony's best picture quality, no matter what you like to watch.

Intelligent processing, ultimate realism.

Simply put, our proprietary 8K HDR Picture Processor X1™ Ultimate is our best processor, ever. Object-based rendering happens in real time at lightning speed to remaster and upscale everything you see to near-8K HDR quality.^{1,2} Everything on the screen is identified, analyzed and optimized individually to adjust the overall contrast, sharpness and color for a picture that looks nearly identical to the real thing.

Experience a more natural picture with 8K X-Reality PRO & Object-Based Super Resolution

Every object, accurately displayed. With Object-Based Super Resolution in combination with 8K X-Reality PRO™, you'll see lifelike detail, textures, and clarity in everything you watch. Leveraging intelligent 8K database, pictures look cleaner with less on-screen noise. Every single pixel is enhanced beautifully by Sony's best 8K HDR Picture Processor X1™ Ultimate.^{1,2}

Enhanced brightness, incredible contrast with Backlight Master Drive and 8K X-tended Dynamic Range Pro 20x

Sony's Backlight Master Drive dynamically changes the light levels in sections of the screen depending on the content, resulting in a dramatic increase in contrast and brightness. Add in 8K X-tended Dynamic Range™ PRO 20x which gives the screen 20 times the contrast range of a conventional LED-edge lit TV³. Backlight Master Drive's calibrated beam design accurately send light only where it is needed for more accurate contrast. Balancing the light output across the screen, darker scenes get darker brighter scenes get brighter.

SONY

An immersive audio experience

Four front facing speakers across the chassis of the TV create wide, authentic sound that seems to come from where the action occurs. With action and sound precisely aligned, your viewing becomes so much more immersive, no matter what you're watching.

See the big picture with 8K HDR, IMAX Enhanced and Dolby Vision

High Dynamic Range (HDR) picture is the way TV was always meant to be watched. 8K resolution and HDR video content combine to bring dazzling detail, color and contrast to everything you watch, while keeping a far wider range of brightness than other video formats.¹ IMAX Enhanced™⁴ makes movies feel larger than life. Dolby Vision™⁵ brings scenes to life with striking highlights, deeper darks and vibrant colors. Whichever format you choose, Sony TVs deliver picture-perfect reality, creating an immersive and engaging cinematic experience.

Every seat is the best seat in the house

X-Wide Angle technology gives the Z9G vivid real-world colors from any angle while retaining more color and brightness than other LED TVs. Enjoy a great picture with incredible color from anywhere in the room.

On-screen action and motion look better than ever

Scenes appear as they do in real life with X-Motion Clarity™ technology. This revolutionary, best in class technology from Sony refines action on the screen in real time with an incredible refresh rate for action that is brighter and clearer than ever before.

TRILUMINOS™ Display & 8K HDR Super Bit Mapping deliver smooth and vibrant colors

Colors are as rich and vivid as nature's own thanks to the TRILUMINOS™ Display with more shades of red, green and blue than ever before. You'll enjoy rich, authentic images that evoke the emotion in every scene. And, 8K HDR Super Bit Mapping reveals thousands of shades and gradations of light, for sunsets as bright and clear as real life.

Hands-free smart TV

With Android TV and the Google Assistant built-in, simply ask and you shall receive. With hands-free voice search, just start with "Hey Google" to ask it questions, control smart home devices like Nest™, or access many of the apps and services you already use every day.⁶ In addition, cast your favorite apps with Chromecast built-in⁷, or enjoy a huge range of apps from Google Play™, including YouTube™, Netflix, Prime Video, Hulu, Spotify and more.⁶

Well-connected to your smart home

With Google Home⁹ and Amazon Alexa¹⁰ compatibility, simply voice-control your TV and ask it to do things like cast and control videos from YouTube with Google Home or change the channel or volume with Amazon Alexa. Apple HomeKit and Airplay 2 support seamlessly integrate your iPhone and Siri devices with your Sony TV for effortless smart home management and content streaming.¹²

Enjoy studio quality Netflix content with Netflix Calibrated Mode

This mode was specially developed to enjoy Netflix originals and reproduce picture quality on a TV that is as brilliant as a studio evaluation master. With Netflix Calibrated Mode, the creator's vision and intent is faithfully preserved.¹⁰

High performance calibration for professionals

Our MASTER Series TVs receive high performance calibration that has never previously been possible using CalMAN software¹¹. It allows adjustments to be made with finer precision than conventional picture quality settings to meet the strict requirements of creators in the post-production stage. Colors are reproduced with maximum fidelity to the original TV signal, giving exceptional picture control for a TV. CalMAN also features an easy-to-use interface that has been well received by calibration specialists.

----------------------	--

1.8K: 7,680 x 4,320 pixels. Requires HDR compatible content from supported streaming services, such as Netflix and Amazon Video or HDR compatible content device connected via HDMI input. Requires HDMI® cables sold separately

2. Upscaled, simulated and enhanced 8K images will vary based on source content.

3. This is the perceptible contrast level expanded by X-tended Dynamic Range PRO technology, which is a unique figure calculated for the contrast that users actually feel and experience (XDR Contrast). This figure is based on our conventional TV without local dimming.

4. IMAX Enhanced content enables the full IMAX Enhanced experience.

5. Dolby Vision™ is available via network update. Dolby Vision content will be compatible with Dolby Vision devices and streaming services such as Prime Video, Apple TV 4K, and Netflix.

6. User must connect to a Google account to use, including voice to activate linked apps. Wireless connectivity requires 802.11 home network (802.11n recommended). Network services, content, and the operating system and software of this product may be subject to separate or third party terms and conditions and changed, interrupted or discontinued at any time and may require fees, registration and credit card information. Apps must be compatible with TV. App availability varies by region and device. Broadband speed of at least 2.5 Mbps recommended for SD services, 10 Mbps for HD streaming or 4K downloads, 20 Mbps for 4K Ultra HD streaming. Use of this TV requires consent to Google Terms of Service and Privacy Policy. Please visit <http://www.google.com/policies/terms/>, <http://www.google.com/policies/privacy/>.

7. Chromecast built-in compatibility dependent on app.

8. Google Home device (sold separately) compatible with Sony TV's powered by Android TV. Requires compatible devices connected to the same wireless home network. Download the Google Home app from the iPhone App Store or Google Play. Subject to third party app terms and conditions. User must link compatible devices in order to control operation. Once download is complete, the Google Home feature may be connected to the Sony device to access the voice control function

9. Amazon Alexa enabled devices (sold separately) compatible with Sony TV's powered by Android TV. Amazon account required. Subscriptions may be required to access certain content. Compatible devices require internet connection.

10. Netflix streaming membership required. 4K Ultra HD availability subject to your Netflix subscription plan, internet service, device capabilities, and content availability. www.netflix.com/terms

11. Requires separately sold CalMAN calibration software to be installed on your PC, a pattern generator, a meter (colorimeter, spectrophotometer etc.), and CalMAN for BRAVIA app to be downloaded from Google Play and installed on your TV. Internet needed to utilize app services on TV. Network services, content, and software of this product may be subject to separate terms and conditions and changed, interrupted or discontinued at any time and may require fees, registration and credit card information.

12. AirPlay 2 and HomeKit compatibility will be available later this year. This Sony TV is compatible with AirPlay 2 and HomeKit. iOS 12.2 or later or macOS 10.14.4 or later is required.
