Common Troubleshooting

Check Your Wi-Fi:

Ensure that your phone is connected to your Wi-Fi. During the product setup within the MOBI® Smart App make sure that you used the same Wi-Fi name and password as your phone is connected to.

QR Code Not Scanning

Ensure the brightness on your phone is raised and that the phone screen does not have scratches or cracks. Place the QR Code ~6-inches away from the MobiCam® and move the device back-and-forth slowly.

Reset MobiCam® PRO

To ensure you are starting from a clean slate, RESET your MobiCam® by pressing and holding the reset button for 10 seconds.

See page 3 to find reset button.
