Darksiders: The Forbidden Land is a co-operative dungeon crawler board game for 1-5 players. Take on the role of your favourite Horseman and battle alongside your fellow Riders through an entirely new storyline set in the Darksiders universe! Discover an entirely new environment; the Forbidden Land - former home of the Cherubim – on a brand new quest at the behest of the Charred Council.

With asymmetric player abilities, you can play as War, Death, Fury or Strife and experience the game completely differently each time. Customisable decks of cards for each Rider mean that even multiple games with the same rider will be different!

The included Campaign Book has 20+ different levels - broken into multiple scenarios – to play through. Games can take anywhere from 30 minutes for a single Level, 1 ½ - 2 hours for a Scenario comprising of multiple levels, or even an entire epic gaming weekend playing through the entire campaign in order! With a variety of enemies as well as numerous modular hex-tile game boards included in the game, we also look forward to seeing fan-created custom levels and scenarios!
