Reset

If only one earbud is working or the charging case cannot control the earbuds, please reset it using one of the following methods:
1. Put both earbuds into the case and keep the lid closed for 10s to complete the reset.
2. Put the earbuds into the case, close the lid, and press and hold the reset button of the charging case for 16s. Wait for 10s to complete the reset.
3. Put the earbuds into the case, close the lid, press and hold the reset button of the charging case for 5s to enter the shutdown interface. Tap the reset button on the right side of the screen, and wait for 10s to complete the reset.

Quick Guide

1

### Bluetooth Pairing and Wearing

Bluetooth Pairing
1. Pick up two earbuds from charging case, the white indicator will blink slowly. (pairing mode)
2. Search for pairing name [TOZO Color Pods] and select it in your mobile.
3. When you power on the earbuds for the first time, if you connect them to the charging case initially, you will need to disconnect the charging case from the earbuds first to release the earbuds' signal before you can connect them to your phone.
If you connect the earbuds to your phone initially, you can directly connect the charging case to the earbuds, allowing the earbuds to connect to both the charging case and the phone simultaneously.

Wearing
1. Ensure the eartip is facing downwards, and then place the earbuds into your ears.
2. Rotate the earbuds towards the side of your auricle to fit snugly.
